I am convinced that as a general rule the Munsifs and Subordinate Judges as well as the District Judges in this province work at high pressure and that no time is wasted by them in the disposal of cases. The area of this province excluding the Feudatory States and Political States not directly under British rule is 83,181 square miles, slightly less than that of England, Scotland and Wales combined. The population is almost as great and it has a passion for a litigation. The number of judicial officers is considerably less and a large number of the title suits tried are long and intricate. Economic conditions make it impracticable at present to increase the number of Courts and Judges and delay in the disposal of cases in such circumstances is inevitable. Moreover the social conditions existing in India are entirely different from those in England at the present day. In England cases are prepared for trial by skilled lawyers, witnesses are more easily induced to give evidence, means of communications are easier, clients are more readily accessible and money is plentiful. In India mortgages, conveyances and other legal documents prepared in the mufassil are drafted generally by ignorant scribes. The preparation of cases before trial is totally inadequate. All pardanashin ladies and most other persons of any rank or station are usually exempted from personal attendance and are examined out of Court. The country is split up into a number of small holdings which constitute in most cases the only tangible property of the people and money is scarce. The vast majority of the people are illiterate. Expedition and efficiency are to them matters of small moment. Their land

is in many cases to them their only means of livelihood and they take all means in their power to put off the day when they will be obliged to part with it. They are not altogether scrupulous in the methods employed for this purpose and as long as these conditions exist it would be impossible to expect the same expedition as exists in western countries.

13th August 1923.

THE HON'BLE SIR J. A. BUCKNILL:—The proposal seems a good one. The position is bad and complex. India seems a land full of litigation and lawyers. I don't think a Judge from England would help much.

6th August 1923.

THE HON'BLE MR. R. L. ROSS:—I am against the appointment of a Committee. The present state of things is primarily the result of Indian social conditions the, strength, absolute and relative, of bench and bar and the fact that it is a foreign system of law that is being administered.

The letter from the Government does not indicate the nature of the representations which have led to questions of delay in litigation being raised nor whether these related chiefly to commercial causes or indicated a general complaint. More figures may give a wrong impression; while any increase in the stringency of the law might produce a real grievance. If the suggestions contained in the last part of paragraph 3 of the letter indicate the matters which would engage the Committee I can see no material result as probable.

The practical considerations such as improvement in the service of processes which is probably more important than anything else in this connection; strengthening, if necessary, the judicial staff; restraining cross-examinations within the limits of relevancy and arguments within the bounds of common sense and similar points in the conduct of litigation are all within the competence of the local Governments and High Courts and should, in my opinion, be left to them.

9th August 1923.

THE HON'BLE MR. H. FOSTER:—I am of opinion that the proposal is a good one and that the scope of the enquiry of the proposed Committee should be on the broad lines indicated in the letter of the Government of India. I presume that there is no case now to discuss the causes of delay or the appropriate remedies therefor.

7th August 1923.

THE HON'BLE MR. T. S. MACPHERSON:—In my opinion the serious delays in the disposal of suits, appeals and execution proceedings should be enquired into, if only that Government may know what the causes are, and so place the blame if any precisely in the right place, as is at present often not the case.

The appointment to the committee of a Judge from England might or might not be useful, so divergent are the factors which count in England and in India. But the proposed committee should most certainly contain Judges of the High Courts who have long experience of running the English Department of the Court.

Though the investigations by the committee may lead to changes in the adjective law which will prevent individual cases from being prolonged almost interminably, I do not as at present advised look for much improvement in the average duration of cases. One reason for this is that it is not intended to look for any solution which may involve the expense of increasing the number of judicial officers. As Registrar of the Court I came to the conclusion that a considerable if not a great decrease in the average duration of cases would have been possible if the cadre were larger especially at certain seasons of the year. It is another matter, however, whether this greater expedition would be worth the extra cost. It may be taken as established that more work cannot be extracted from the present staff who are already overworked.

As to executions I have come to the conclusion after consideration of the matter for several years that there is no real cause for alarm at the number shown as disposed of in any one year as infructuous. (It is true that some cases are struck off with undue strictness by overworked and harassed Munsifs but they form a very small proportion). The real criterion would be the proportion of the decrees put in execution which eventually prove infructuous as compared with the total number put in execution. There are no definite materials on which to form an opinion; but my impression is that the proportion is small so that eventually the successful litigant does get his money; and I certainly do not think that except perhaps in rent decrees there is any good reason in this country for decreasing the period of limitation for application for execution.

If an investigation is to be made, the Committee should not sit as a body until a single officer preferably a High Court Judge has for some months been on special duty to secure statistics on many points not dealt with in the ordinary statistics submitted to and by the High Court and otherwise to prepare the way. It will also require some time for the Subordinate Courts to prepare and furnish those statistics.

It should also be remembered that in some parts of the country, for instance, in backward tracts like Chota Nagpur and Sambalpur expedition in the disposal of cases is more essential than in the more settled areas. In the latter more small money suits are now disposed of by the Small Cause procedure which is rapid enough, and for certain months in the year the Munsifs devote their time largely to rent suits which are practically all filed on or about a single date and in many cases are uncontested. This absorption in rent suits no doubt increased the duration of title suits but that is unavoidable unless expense which is not contemplated, is to be incurred.

It must also be remembered that ordinarily the Bar is by no means desirous of expedition either in the preparation or in the hearing of a big suit.

But as several District Judges remark the delays are mainly due to the system itself in relation to the conditions of India and its peoples. At first sight therefore it does not appear feasible (further expenditure being ruled out) to expedite matters appreciably except in minor details without also incurring the result " The more hurry the less speed." Still an investigation *provided always it is a close one conducted by real experts* should in the first place result in removing causes of delay in such minor matters and indicating how, when financial conditions improve, judicial work may be accelerated by increase of staff, and in the second place be beneficial to the State in various other ways.

The 8th August 1923.

THE HON'BLE SIR B. K. MULLICK.—I think it is impossible to deal with this matter exhaustively at the stage, but the following observations may perhaps assist the Government of India in deciding whether a committee such as is proposed should be appointed.

2. The following table gives the figures for the last five years of the duration of trials in the Courts of Subordinate Judges and Munsifs in Bihar and Orissa.

Statement showing the average duration of suits in Bihar and Orissa during the years 1918 to 1922.

Year.	CONTESTED.		UNCONTESTED.		
	Sessions Judge's days.	Munsifs' days.	District Judges' days.	Sessions Judges' days.	Munsifs' days.
1918	424	232	215	310	139
1919	444	222	207	295	121
1920	391	214	206	258	124
1921	417	222	254	268	129
1922	385	207	189	263	111

3. It will be seen that although there has been gradual improvement the duration of cases is still high. One obvious remedy is to increase the number of judicial officers very largely at once, but so far as the causes of delay are peculiar to Indian conditions it will be as well to remember that time alone will effect any real improvement. Legislation and the provision of more adequate ministerial staff may do something, but it is idle to expect that the standard of modern England can ever be attained here till material and economic conditions improve. The principal causes which operate to maintain the difference between the two countries may be summarised as follows :—

(*a*) The habits of procrastination inherent in the people.
(*b*) The joint family system and the resultant joint tenancies.
(*c*) The great distances to be travelled by litigrants.
(*d*) Insufficient communications.
(*e*) The incompetence of the bar, the absence of solicitors and of skilled draftsmen.
(*f*) The necessity of examining on commission pardanashin women, important landowners and witnesses residing beyond a certain distance from the Court.
(*g*) The incompetence and frequent dishonesty of the ministerial staff.
(*h*) The fact that this province is a country of peasant proprietors with small holdings who are compelled by necessity to fight for every inch of their land which is their only means of subsistence.

To this cause is to be added the general observation that the laws of procedure and evidence are foreign to the people and lend themselves to chicanery and subtleties which were never anticipated by their framers and that litigation is sometimes a gamble, sometimes a safety-valve, and sometimes an engine for oppressing a weaker opponent. But the present system of judicial procedure was introduced after mature consideration and is too late in the day now to think of anything more in conformity with the habits of the people ; and if the experience of the States under the rule of Indian Chiefs is any guide then things are far worse there in British India. In every such State there is I believe a steady movement towards the introduction of the elaborate procedure of the Indian Courts.

4. But although the field for reform is limited I think that the Committee may be usefully employed in inquiring into the actual work of the various Courts with the object of making suggestions for the quicker disposal of business and I propose to deal shortly with the state of business in each of these Courts.

In this province, the lowest in rank is the Court of the Munsif which is solely a Court of original jurisdiction. Some Munsifs are vested with S. C. C. powers and it may be safely said that they discharge these powers satisfactorily and without much delay. In the ordinary course cases under Rs. 100 in value are decided within three months. Title suits and money suits, if contested, generally take about six months, and some reform in respect of these is indicated. Rent suits where they are tried by Revenue Officers are decided with much greater expedition than in the Civil Courts.

Munsifs who have special jurisdiction, that is to say, for the trial of suits between Rs. 1,000 and Rs. 4,000 are naturally slower, but it does appear to be a fact that they dispose of these cases quicker than a Subordinate Judge.

It is often said that the difficulty of serving processes is the cause of the delay in the trial of contested money and title suits, but in my opinion, this evil is much exaggerated, and the process serving department on the whole works well having regard to the material with which that department is staffed. The salaries of the process servers are small and the temptations great, and it is surprising that the results are not worse than they really are.

5. In these circumstances, the following remedies for expediting trials in the Courts of the Munsifs appear to me to be worthy of consideration :—

(*i*) The transfer of rent suits to the Revenue Courts and of the process department to a Revenue Officer. The Revenue Officer being a touring officer will be in position to supervise the service of processes more efficiently.

(*ii*) The substitution of a summary procedure for the trial of title suits under Rs. 1,000 in value. In a country where the sanctity of oaths and affirmations is by no means so highly rated as in England oral evidence loses much of its force ; and although the number of witnesses called is always excessive and the right of cross-examination is always abused the average Munsif decides a case not so much upon oral as upon the documentary evidence adduced. The substitution of the summary procedure for suits under Rs. 1,000 in value would not be a serious hardship.

(*iii*) Greater attention to the rules for discovery and inspection of documents. These rules are very little understood by mufassal practitioners and contact with men trained to the practice of the original side of High Courts alone can help to spread the necessary knowledge to mufassal Courts.

6. The next class of Courts which require consideration are the Courts of the Subordinate Judges. In these Courts the average contested suit is not disposed of under one year. In my opinion the delay cannot be remedied without a substantial increase in the staff, for the Subordinate Judge in this province is habitually overworked and rarely lives to enjoy his pension for any substantial period of time after retirement. But as in the case of Munsifs the introduction of a summary procedure for the trial of some of the suits would give some relief. The Committee might perhaps consider whether suits up to the value of Rs. 5,000 cannot be summarily tried.

7. But both in the Courts of the Munsifs and the Subordinate Judges there is one general consideration which has always to be kept in mind. A large number of orders appear on the order sheets of the Courts which bewilder and amaze one who is strange to the procedure, and they are apt to leave the impression that the Court is lenient to the point of weakness and that adjournments are to be had for the mere asking. That is really not the case. The fact is that the Courts are overworked and adjournments are given not because it is necessary to the parties to get them but because the Court cannot take up the case and because any excuse is good enough for the order sheet. As soon as it is known that the Court will take up the case all frivolous objections are dropped and an old case is quickly got ready for trial. This is noticed time after time when an additional officer is posted to clear off arrears and there is then very little difficulty in making cases ready for hearing.

I would suggest that the services of a stenographer or clerk who could relieve the Judge of the duty of recording evidence should be entertained in all suits above the value of Rs. 1,000. This will probably add considerably to the cost of judicial administration but there can be no doubt that it will result in avoiding adjournments for want of time and will enable the Court to give greater attention to what the witness is saying.

8. In courts of appeal subordinate to the High Court there is little delay but there will clearly be greater expedition if the introduction of summary procedure in the Courts of the Munsifs and Subordinate Judges is accomplished by a corresponding curtailment of the right of appeal. I would allow no appeal in cases to which that procedure applies without the sanction of the trial Court.

9. As to the High Court the principal reason for waste of time is that owing to the incompetence of the mufassal practitioners the cases are never properly presented till they come to that tribunal. The practice of taking advice on evidence is unknown and a question is never pushed home in cross-examination with the express purpose of leaving it open to Counsel in the High Court to resort to inconclusive and inconsistent theories. The practice of what is called building up a case in the trial Court for winning it not in the trial court but in the appeal court is also widely prevalent, and for this it is difficult to suggest a remedy. The remedy if there be any lies with the trial Court and something might also be possibly done towards costs depend on the length of the trial. While costs and fees in the High Court are certainly not low, I think litigation is disproportionately cheap in mufassal Courts. It is no uncommon thing now-a-days to see a Subordinate or District Judge continuously occupied with one civil suit for more than six months at a stretch.

10. In this High Court there are no original commercial cases but it is possible that in High Courts which have an original side some reform may be needed. Whether the establishment of a City Civil Court is indicated in a place like Calcutta for instance is a matter which the Committee would be well fitted to investigate.

11. As regards business in the High Court one other remedy suggests itself to me, namely, the curtailment of the right of appeal against the decision of a single Judge of the Court in cases under Rs. 1,000. This is a reform which is long over-due and at the present time the state of work in the High Court is such that it is not fair to allow litigants whose suits are of small value to monopolise a disproportionate share of the time of the Court. In a suit under Rs. 1,000 in value three appeals seem to be wholly unnecessary.

12. As an illustration of the average progress of a suit from its institution till its disposal by the High Court I give the instance of a suit for the recovery of Rs. 600 odd for goods bought by a commission agent on behalf of the defendant. The suit was instituted in the Court of the Munsif of Patna on the 13th of September 1918. As the defendant resided in Sylhet his appearance could not be procured till the 12th of February 1919. He took two unnecessary adjournments to file his written statement which he finally filed on the 14th March 1919. Issues were framed on the 28th of March. After no less than ten adjournments the trial began on the 1st of August 1919, and was concluded on the 4th of August 1919, judgment being delivered on the 14th of August. The order sheet of this case of which a copy is appended exhibits a typical instance of the manner in which adjournments are really given because the Court has not time to take up the case. From the Munsif there was an appeal to the District Judge who registered the appeal on the 19th of September 1919 but he could not take it up till the 20th April 1920 on account of other work. He heard arguments that day and delivered judgment on the 28th April 1920. Next a second appeal was preferred in the High Court on the 14th August 1920, but owing to pressure of other work the appeal could not be disposed of till 3rd July 1922. As the case was heard by a Judge sitting alone a Letters Patent Appeal was next preferred on the 28th July 1922 and was disposed of on the 10th of August 1923 by a Division Bench. The litigation therefore for this small sum of money took from 13th of September 1918 till the 10th of August 1923. In my opinion the curtailment of the right of appeal in this class of case is urgently indicated.

13. Execution cases. The delay in this branch of work is at first sight the great blot in our mufassal administration of civil justice, but in a country where the number of money suits is comparatively small and where land is the principal subject for litigation it is really not of much consequence. The large number of infructuous applications indicates that decree-holders do not prosecute their cases vigorously and as has been already observed no amount of legislation will overcome their habits of indolence and procrastination. In every execution case at least four sets of notices have to be served and it is impossible to bring a holding or an estate to sale under four months. Owing also to the illiteracy and the meagre pay of our process serving establishment the process server carries no weight. Every service of process is attacked and almost every sale is impeached on the ground of irregularity. Where there is a local newspaper a publication of sale notices in it often has a very salutary effect, but in the mufassal these are few in number and their circulation is poor.

In my opinion the only effective remedy against the prolongation of execution proceedings is the shortening of the period of limitation. Twelve years is far too long for the life of a decree and I would limit the period of limitation for the execution of decrees for moveable property to six years and for immoveable property to three years.

14. It appears, therefore, to me that upon the information at present available a committee such as that proposed by the Government of India might be of considerable assistance in investigating the causes of delay in the various provinces and in suggesting legislation for the reduction of the duration of trials. Whether materials should first be collected before the Committee is appointed is a question of detail as also is the question whether it would be better to send a Judge from India to England to study the judicial system there rather than bring a Judge out from England to this country. That

experience of a different system will be valuable cannot be denied; and if it is found more convenient to bring out a Judge from England I have no doubt with the assistance of one or more qualified and experienced Judicial Officers and legal practitioners from this country he will be able to make effective suggestions for speeding up the judicial machinery.

No. $\frac{961}{760-V}$, dated Nagpur, the 5th September 1923.

From—D. J. N. LEE, ESQ., I.C.S., Under-Secretary to Government, Central Provinces, Judicial Department,

To—The Secretary to the Government of India, Home Department, Simla.

SUBJECT:—*Appointment of a Committee to consider the question of expediting disposal of suits and appeals in civil cases.*

With reference to Mr. Gwynne's letter No. F.-159-1922, dated the 25th/28th June 1923, asking for the views of this Government on the above subject, I am directed to say that the Governor in Council is of opinion that the question of shortening the duration of civil litigation in India is so important and at the same time so complicated that the appointment of the proposed Committee for its consideration is highly desirable. He is entirely in favour of the proposal of the Government of India.

Letter No. J.-727-5433-G. J., dated Shillong, the 23rd October 1923.

From—A. W. BOTHAM, ESQ., C.I.E., I.C.S., Chief Secretary to the Government of Assam, General and Judicial Department,

To—The Secretary to the Government of India, Home Department.

SUBJECT:—*Delay in the disposal of suits and appeals.*

I am directed to refer to Mr. Gwynne's letter No F. 159-1922-Judicial, dated the 25th June 1923, and to say that His Excellency the Governor in Council agrees with the unanimous opinion of those whom he has consulted that the appointment of the proposed Committee to enquire into the delay in the disposal of suits and appeals and the unsatisfactory results obtained in the process of the execution of decrees would be valuable.

2. As to the scope of the enquiry, His Excellency the Governor in Council agrees that the enquiry should be concerned both with the delay in disposal of suits and the unsatisfactory results of execution proceedings; and considers that the Committee should deal rather with the possibility of enabling the existing staff to deal more expeditiously with the work than with the question of strengthening the present staff.

No. 873-G., dated Calcutta, the 19th January 1924.

From—J. D. V. HODGE, ESQ., I.C.S., Registrar of the High Court of Judicature at Fort William in Bengal, Appellate Side,

To—The Secretary to the Government of India, Home Department.

SUBJECT:—*Delay in the disposal of suits and appeals.*

I am directed to refer to Mr. Tonkinson's letter No. F.-152-22-Judl., dated the 17th November 1923, and, in reply, to communicate, for the information of the Government of India, the following observations of the Court on the above subject.

2. The Government of India's Circular letter of the 25th June 1923, addressed to Local Governments, reached the Court in the latter part of November. This letter, after referring to statistics illustrating Judicial delays and after making some observations of a more or less general character, concludes with a suggestion that a Committee should be appointed to consider the whole subject and asks for the opinion of the Court "in regard to the advisability of appointing such a Committee and the scope of its inquiry if appointed." The limitation is added that the Government do not contemplate any increase of the Judicial establishments or any additional expenditure. They look primarily to modifications of law and procedure designed to secure greater expedition in civil litigation.

3. As matters now stand, it is understood that a Committee has in fact been appointed, or is in course of formation, and that only the question of the scope of its inquiry remains. As to this, the limitation imposed by the Government of India will apparently

preclude the Committee from considering whether some increase of initial expenditure might not in the long run result in expedition and also in economy. But if such a limitation be necessary, the Hon'ble Chief Justice and Judges consider that for the rest the instructions to be given to the Committee should be of the widest possible character and that it would be unprofitable to attempt to mark out in advance the particular lines of inquiry which they should pursue. As the Government say in one part of their letter, in view of the peculiar circumstances of India, "if any improvement is to be now effected it can only be as the result of a review of the whole question in its widest aspects." The Hon'ble the Chief Justice and Judges think that to suggest a line of inquiry is provisionally to recommend a remedy and the suggestion itself may arouse opposition or discussion before the materials for a decision have been collected. It seems to Their Lordships desirable that the Committee should start with open minds and make their own proposals after they have investigated the causes of delay in the light of the evidence which they receive.

The following notifications, issued by the Government of India in the Home Department, published in the *Gazette of India*, dated the 2nd February 1924, are republished for general information.

RESOLUTION—No. 325Medl.

Minister in charge: The Hon'ble Mr. S. N. Mallik, M.A., B.L.

READ—

The Triennial Report on the Working of the Hospitals and Dispensaries in the Bengal Presidency for the years 1920, 1921 and 1922.

1. The most outstanding feature of the triennium, which radically affected the administration of the Medical Department, was the introduction of the Reforms Scheme under which this department was placed under the

control of the Minister in charge of Local Self-Government responsible to the Legislative Council for its administration. A standing committee of the Legislative Council, consisting of the Surgeon-General and four non-official members of the Council as members, was also constituted to advise the Minister on matters of policy concerning the department. The opinion of the standing committee was freely sought and was of great value in arriving at decisions in matters concerning policy and involving large expenditure.

2. The triennium opened under distinctly adverse conditions arising out of the effects of the Great War, high cost of living, thinned ranks of medical officers owing to the absence of a large number of them on military duty, prevalence of epidemics of more than normal severity throughout the province, and severe financial difficulties. Towards the latter part of the triennium, however, the conditions improved considerably owing to the gradual fall of the high level in prices and the return of epidemics to their normal severity, while the reversion of nearly all the medical officers from military to civil duties relieved the severe strain under which the work had to be carried on for a number of years.

3. Financial stringency, however, continued to be acutely felt throughout the triennium, and the rigid economy and retrenchment which had in consequence to be enforced necessitated the postponement of many carefully matured schemes of development and expansion. In spite of these difficulties, however, the triennium was marked by solid progress alike in the field of medical education and medical relief as well as in the provision of facilities for medical research, while very substantial improvements were effected in the emoluments of all ranks of the medical services.

Medical Research.—In the sphere of medical education and research the most gratifying achievement was the opening of the Calcutta School of Tropical Medicine and Hygiene with the Carmichael Hospital attached to it, containing accommodation for 116 patients. Arrangements were made to provide systematic courses of post-graduate instruction in this institution both in tropical medicine and hygiene, and for the grant of diploma in tropical medicine. The instructional classes attained great popularity and were largely attended. Government (Ministry of Local Self-Government) share the satisfaction of the Surgeon-General in the interest which the post-graduate classes in tropical medicine evoked from private practitioners who were quick to recognise and avail themselves of the advantages afforded by the system of instruction given in them, no less than 34 general practitioners having taken advantage of these courses of instruction during the years 1921 and 1922.

In the sphere of research notable advance was made during the period under review by the opening of a Research Department with laboratories in connection with the School of Tropical Medicine and Hygiene for research in Leprosy, Kala-azar, Hookworm, Diabetes, Bowel diseases, Filariasis, Beri-beri and the Pharmacology of indigenous drugs. These departments have produced remarkable work, particularly in connection with Leprosy and Kala-azar.

Another gratifying feature in connection with the Research Laboratories of the School of Tropical Medicine and Hygiene is the generosity and practical interest evinced by many private benefactors and industrial concerns, and special mention should be made of the two research scholarships attached to this institution endowed by the Hon'ble Maharaja of Darbhanga and Mrs. Mitra for research into the Filarial diseases and Diabetes, of the financial assistance rendered by Messrs. Smith Stanistreet & Co. towards maintaining a research worker for enquiring into the causation and treatment of leprosy, of an endowment made by a Bombay gentleman for work on Beri-beri, and of the generosity of the European Jute, Tea and Mining Associations in financing three whole-time research workers with their staffs to investigate into the Hookworm disease, Kala-azar and Bowel diseases with special reference to their influence on the efficiency of the labour force in India.

Medical Education.—In order partially to meet the demand for more qualified practitioners of the Sub-Assistant Surgeon class throughout the Presidency of Bengal, more particularly in mufassil areas, the sanctioned strength of students in the Campbell and Dacca Medical Schools was raised by 100 and 50, respectively. A third medical school, viz., the "Ronaldshay Medical School," with accommodation for 200 students, was established at Burdwan and formally opened in July 1921. In pursuance of a resolution which was accepted by the Bengal Legislative Council, a committee was appointed in April 1921 to advise Government as to the steps to be taken for the establishment of more medical schools for the training of medical practitioners to practise in rural areas. The committee recommended a cheaper type of medical schools at various district headquarter stations where there are large hospitals suitable for clinical teaching. After consideration of the recommendations of the committee a programme for the establishment of new medical schools at such places as Mymensingh, Chittagong, Berhampore, Jalpaiguri, etc., was drawn up. As for obvious reasons, however, all the schemes could not be taken up at once, it was decided to proceed gradually by completing one project at a time. The scheme for a medical school at Mymensingh, which had been already matured, was given the first place in order of urgency. The land required for this school was acquired and a start made with the construction of buildings for this school, which it is hoped to open in July 1924. It was decided to take up the schemes for medical schools at Chittagong and Berhampore as soon as funds were available. In the meantime the respective Divisional Commissioners were asked to constitute local committees for the purposes of drawing up detailed schemes and taking steps to raise funds locally towards the capital expenditure involved. Government (Ministry of Local Self-Government) trust that the steps taken during the triennium constitute an important advance towards the solution of the problem of more adequate medical assistance in the mufassil.

Medical Relief.—The total number of hospitals and dispensaries in the mufassil increased from 765 to 859, an increase of 94 over the number existing at the end of the previous triennium. This figure does not take into account several dispensaries opened in the district of Howrah by the District and Union Boards, accurate figures regarding which were not available to the Surgeon-General at the time of writing his report. Taking, therefore, the latter dispensaries into consideration, the total increase exceeds 100. Thirty-two of these new dispensaries fall under the head of private aided and non-aided institutions, whereas more than 70 come under the head of local fund institutions. The Surgeon-General is of opinion that if the progress in the addition of dispensaries continues at this rate, adequate medical relief will be made available to the rural population of Bengal in the course of seven years more. Government (Ministry of Local Self-Government) trust, however, that the progress will be even further accelerated, and the great practical interest which has been taken by the local bodies in the matter certainly warrants this hope. Perhaps the most encouraging and interesting feature in connection with the increase in the number of dispensaries is the part played by the union boards in the opening of new dispensaries. Several dispensaries in the Burdwan Division have been opened by these bodies. Government are convinced that the union boards are destined in the near future to play a most important part in the solution of the problem of adequate medical relief in rural areas, and they trust that District Boards and local officers will accord to these bodies every facility, encouragement and advice in opening rural dispensaries under their control. Government are framing a set of simplified rules so as to leave these bodies as much independence and discretion as possible in the management of these institutions opened by them.

A great impetus was given during the period towards the expansion of medical relief in the mufassil areas. In 1922 Government drew up a scheme for the establishment of new dispensaries at each thana headquarters and in

villages where the need for such institutions was acutely felt, and a promise was held out to make an annual grant of Rs. 1,50,000 for a period of three years towards the cost of the maintenance of 100 thana dispensaries and 400 village dispensaries, provided that the District Boards were prepared to undertake to bear the capital cost as well as the balance of the maintenance charges. Unfortunately, however, owing to the financial stringency a sum of Rs. 15,000 only, which was actually available, was distributed to the District Boards which agreed to establish new dispensaries on the terms issued by Government. It is satisfactory to note that several District Boards adopted a forward policy in this important matter and opened new rural dispensaries irrespective of Government assistance.

The Calcutta hospitals were brought to a more up-to-date footing. Special mention may be made in this connection of the extension of the Elliot Ward of the Campbell Hospital and the construction of the Nurses' Home at an aggregate cost of Rs. 6½ lakhs, as well as of the additional Surgical Pavilion erected in this hospital and the bringing up of its Maternity Branch to a more efficient state. The staff of nurses attached to the Calcutta hospitals was increased from 346 to 422.

The enterprise shown by the Berhampore, Mymensingh, Chittagong and Darjeeling Victoria Hospitals in providing adequate nursing facilities for their patients is specially commendable.

Hospital accommodation and attendance in the triennium under review as compared with those in the previous triennium will appear from the following statement :—

A—INDOOR.

	Triennium. 1917-19.	Triennium. 1920-22.
Calcutta Hospitals (number of beds)	2,385	2,857
Ditto (number of patients)	107,632	123,059
Mufassil Hospitals (number of beds)	4,454	4,926
Ditto (number of patients)	208,860	204,408

B—OUTDOOR.

Calcutta Hospitals and Dispensaries (number of patients) ...	1,230,994	1,243,038
Mufassil Hospitals and Dispensaries (number of patients) ...	19,414,211	21,641,384

In the case of the Calcutta hospitals the increase was mainly contributed by the opening of the Carmichael Hospital, and the opening of the Surgical Ward in the Carmichael Medical College, Belgachia, with 120 beds in 1922. The substantial increase in the number of beds was shared by both the Calcutta as well as mufassil hospitals. There was also a considerable increase in the number of indoor patients in the case of the Calcutta hospitals. In the case of the mufassil hospitals, however, there was an actual decrease in the number of indoor patients. This was probably in part attributable to the fact that owing to financial stringency many of these hospitals were unable to receive the full number of patients for which accommodation was available.

With regard to the attendance in the outdoor wards of both the Calcutta and mufassil hospitals, the fact that in spite of the period under review being considerably healthier than the previous triennium there was a large increase in the number testifies to the increasing popularity of these institutions.

The total receipts of the Calcutta hospitals and dispensaries increased from Rs. 70,57,000 to Rs. 87,72,000, and Government contribution increased

from Rs. 50,71,000 to Rs. 61,40,000. Local bodies contributed nearly Rs. 11 lakhs; Rs. 6,63,000 was received from fees from paying patients, while Rs. 5,15,000 were collected from donations.

The total expenditure on the mufassil dispensaries amounted to Rs. 51,38,000, of which 14 per cent. was contributed by Government and 60 per cent. by District Boards and Municipalities, the remainder being met from subscriptions and other sources.

The system of subsidising private medical officers was attended with satisfactory results in the districts of Hooghly and Tippera, and Government commend it to the consideration of other District Boards.

Government (Ministry of Local Self-Government) take this opportunity of congratulating the local bodies on the enterprise shown by them in the sphere of medical relief during the triennium under review. A large amount of medical relief was also afforded by medical missionaries and mission hospitals, and it is a matter for regret that accurate information is not available regarding the good work done by them in this respect.

Revision of pay and prospects of the Medical and Ministerial Services.—Very substantial increases were effected in the pay of all ranks of officers in the Medical and Ministerial Services attached to the hospitals and dispensaries in the province, and this much-needed revision will assuredly make for greater efficiency by securing greater contentment among all ranks of officers who had been severely feeling the pressure of the constantly increasing cost of living for several years past.

Training of Nurses.—A scheme was drawn up and approved for the training, examination and registration of nurses and midwives, and the State Medical Faculty was authorised to maintain separate rolls for qualified nurses and midwives in the province so that their practice may be regulated and supervised. This scheme has since been given effect to, and nurses and midwives are being trained for the various hospitals in the city and examinations held and qualifying certificates given. To meet the demand for trained Indian nurses, centres for their training were established at the Dacca and Mymensingh hospitals. In order to make the profession of nursing more attractive to Indian women the pay and prospects of the nursing establishment were thoroughly revised. Steps were also taken to train Hindu ladies to adopt nursing as a profession, but unfortunately with no success, as none of the pupil girls were willing to take up nursing as a profession. It is to be hoped that the prejudice now prevailing among the Hindu community in this connection will before long disappear, and that Hindu ladies will come forward for training in the noble profession of nursing. Government trust that the arrangements now made for the training of Indian nurses will go a long way to remove the acute want of nursing facilities which is now felt in almost all the mufassil dispensaries.

Recognition of indigenous systems of medicine.—An important departure involving principle was made by revising the dispensary rules so as to make it possible for the District Boards to establish, maintain and make grants-in-aid to dispensaries which follow systems of medicine other than allopathic. The Ayurvedic dispensaries which were accordingly established in Khulna and Tippera and the Homœopathic dispensaries established at Faridpur are reported to have treated a large number of cases.

In pursuance of resolutions moved in the Legislative Council two committees were appointed to enquire and report on the question of restoring or developing the Ayurvedic and the Tibbi or Unani systems of medicine. The reports of these committees are being awaited with interest.

Increased association of the independent Medical profession with Government Hospitals.—The practice of associating selected private medical practitioners with the staff of the Calcutta hospitals as making for efficiency and economy was further extended during the triennium by the appointment of an honorary physician and an honorary surgeon in the out-patients' department of the Campbell Hospital. These officers also held charge of the special departments of Ear, Nose and Throat and Skin diseases of this institution, and this resulted in a marked increase of popularity of these sections of the hospital.

Financial assistance from the public.—A specially encouraging feature of the triennium was the generous assistance received from the public in the sphere of medical relief. The important part played by private donors and industrial associations in connection with the Research branch of the Calcutta School of Tropical Medicine has been already mentioned. Mention may also be made of the donation of Rs. 30,000 received through Sir Kailash Chandra Basu, C.I.E., O.B.E., for the construction of a Children's Ward in the Campbell Hospitals and of the munificent donation of rupees one lakh by Raja Rao Jogendra Narayan Roy Bahadur of Lalgola for general improvement of the Berhampore Sadar Hospital. Government take this opportunity of expressing their appreciation of the generosity of these gentlemen and associations as well as of others mentioned in the report, and trust that their example will stimulate others to co-operate with financial assistance in the important work of medical relief in the province.

Treatment of the Principle Diseases.—(*a*) **Malaria.**—Malaria continued to be the most widely prevalent disease in the province, and nearly one-third of the total number of patients in all the district hospitals were treated for this ailment. Treatment by injections of quinine bi-hydrochlor was largely resorted to in many places with satisfactory results. During the last three years 5,860 lbs. of quinine was purchased by the mufassal hospitals and dispensaries from the Juvenile Jail at a total cost of Rs. 2,15,881, while an additional quantity of quinine, worth Rs. 11,10,248, was sold by the Juvenile Jail to the public through post offices. It is thus evident that the general public have taken advantage of Government quinine in a very large measure. The high price of quinine and the inadequacy of the funds of the hospitals and dispensaries on the one hand and the poverty of the masses of the people on the other, however, constitute a serious hindrance to an adequate supply of quinine being utilised by the general body of the sufferers, and so long as India cannot be independent of world prices and of outside sources in the matter of quinine supply this will continue to constitute the most serious handicap to the utility of the hospitals and dispensaries in a highly malarious province like Bengal.

(*b*) **Kala-azar.**—There was a wide prevalence of kala-azar in the province during the triennium. The total number of kala-azar patients treated in the Calcutta hospitals was 7,028 as against 3,400 in the previous triennium, the figure for 1922 (2,940) alone being higher than the total for the triennium 1914-16. No less than 15,566 persons were treated for this disease in the year 1922 alone in the mufassal dispensaries as against 5,561 in 1920 and 3,198 in the concluding year of the previous triennium. The increase in the number of kala-azar cases treated at the hospitals is no doubt attributable to a better knowledge and correct diagnosis of the disease as also to the better method of treatment now afforded, which encourages patients to resort to the hospitals in large numbers. Intravenous injection of antimony has been found to result in an effective cure for this disease, and no less than 93·38 per cent. of the patients were cured by this treatment in the Calcutta hospitals. The District Boards of Tippera and Dinajpur showed notable activity in the opening of treatment centres for kala-azar cases, and special credit is due to the authorities of the Dinajpur Sadar Hospital which opened a kala-azar training class under the supervision of the Civil Surgeon and Assistant Surgeon and arranged for bi-weekly lectures to be given to the District Board medical officers who attended these classes.

In view of the menace which kala-azar presents in many parts of the province, the district and rural hospitals have before them a fruitful field of activity in the systematic treatment of this disease under the active supervision of the medical officers; and Government (Ministry of Local Self-Government) trust that local bodies will take steps to establish centres of kala-azar treatment in their hospitals and dispensaries with a view to stamp out this scourge from the country within a reasonably short time. In this connection the attention of local bodies is invited to the general lines of an anti-kala-azar campaign indicated in the resolution recently issued on the subject.

(c) **Leprosy.**—The work in connection with the research into Leprosy will be greatly facilitated by the King Edward Memorial Leprosy Research Institute which is expected to be shortly opened in connection with the Calcutta School of Tropical Medicine and Hygiene out of the sum of Rs. 2,50,000 contributed by the King Edward Memorial Fund.

The Mission to Lepers maintained two asylums at Bankura and Raniganj, and Government maintained a Lunatic Asylum at Gobra near Calcutta. The arrangements at present prevailing at these asylums are, however, not based on modern lines and the accommodation provided is entirely inadequate for the number of lepers in the province; nor are they sufficiently attractive to induce lepers to settle down in contentment and to prevent them from running away. The best method of dealing with lepers in an advanced stage in accordance with modern ideas on the subject is to segregate them in leper colonies or settlements on the lines of those recently started in other countries. It has accordingly been decided to establish a leper colony in Bengal. A suitable site for the purpose has already been acquired in Midnapore at a cost of Rs. 52,000 generously contributed by the Mission to Lepers, but for want of necessary funds it has not been found possible to undertake the construction of the buildings.

In view, however, of the vast number of lepers in the province, the provision of a large leper settlement with an administrative and medical staff, although very necessary as far as it goes, can, in the opinion of such a high authority as Sir Leonard Rogers, only be regarded as touching the fringe of the problem and can consequently produce but a slow decrease of the disease in the province. The splendid work which is now being done by Dr. Muir at the Calcutta School of Tropical Medicine has demonstrated the possibility of a most important extension of the campaign against this disease through the multiplication in every infected town in India of out-patient clinics at the principal hospitals for the treatment of the early cases of leprosy who are infecting a new generation by contaminating those living in the same houses with them, although they are not an appreciable source of danger to any one they may come into casual contact with in the streets while attending such clinics. Government accept the opinion of Sir Leonard Rogers in this matter and hope that such a clinic will, in the near future, be a part of every important hospital in the province, where a convenient separate out-patients' room will be set apart for the treatment of lepers, the injection being given by medical men who have received previous practical training in the Central Leprosy Institute. In this way alone will the early cases be rendered ineffective and the continued spread of the disease cut short at its source. Such Leprosy clinics, far from being a danger to the town adopting the plan, will secure the greatest possible protection against the continued prevalence of the disease. Government (Ministry of Local Self-Government) are confident that by these means in addition to adequate leper colonies it should be possible in a very few decades to bring about a material reduction in the number of patients suffering from this loathsome disease which is such a serious menace to the present and future generations; and they invite local bodies, industrial associations and private donors to co-operate with adequate financial assistance in providing the requisite organisation needed to bring about this result.

Concluding remarks.—In summing up the working of the Medical Department and of the hospitals and dispensaries during the period under review it may be claimed that the progress achieved in the face of the

manifold difficulties which presented themselves during the period has been solid and substantial. Although many urgent developments were held up for want of funds, important principles have been adopted which will have far-reaching consequences on the future administration of the department; a substantial expansion has been effected of the field of medical relief and additional facilities have been provided for medical education and medical research which will not only materially increase the general efficiency of the existing hospitals and dispensaries but will bring about a substantial increase in the resources at the disposal of the community for the prevention and cure of disease and the relief of suffering. Further progress is dependent upon a fulfilment of the three conditions necessary for expansion, viz., an improvement in provincial finance, a quickening of the activities of local bodies and more generous financial assistance from the public. An additional factor which began to operate during the triennium under review and which is destined to play a most important part in the solution of the problem of medical relief in the mufassil areas was the introduction of the co-operative principle in the establishment and management of rural dispensaries. The full significance of this movement started by the Central Co-operative Anti-Malarial Society under the initiative of Rai Bahadur G. C. Chattarji, M.B., is expected to be realised in the course of the current triennium.

The thanks of Government (Ministry of Local Self-Government) are due to Major-General B. H. Deare, C.I.E., I.M.S., and other officers who held charge of the responsible office of Surgeon-General with the Government of Bengal during the period under review for their efficient administration of the department and to the medical officers and staffs of the several institutions for their good work.

By order of the Government of Bengal

[Second publication.]

No. 81.—The 28th January 1924.—The following draft of revised rules and rates of tolls for the Calcutta and Eastern Canals, Tolly's Nala and Sundarbans Steamer Route, which, in exercise of the powers conferred by sections 6 and 11 of the Canals Act, 1864 (Bengal Act V of 1864), the Governor in Council intends to make in supersession of all previous notifications on the subject, is hereby published for the information of persons likely to be affected thereby.

II. The draft will be taken into consideration on or after the 20th March 1924, and any objections or suggestions received by the undersigned before that date will be considered :—

Draft Revised Rules and Rates of Tolls.

The rules shall apply to the following navigable channels which are included under the designation "Calcutta Canals and Tolly's Nala" and the "Sundarbans Steamer Route."

---

1. Every vessel on entering the Calcutta Canals or Tolly's Nala shall be liable to measurement for the purpose of ascertaining the tolls payable ; in case of any reasonable doubt arising, the persons appointed by the Governor in Council to collect tolls and officers to whom such persons are subordinate shall have authority to enter upon and again measure a vessel notwithstanding that it was measured on entering the canals.

2. Vessels for the purposes of the determination of tonnage shall be divided into two classes as below :—

Class I.—To include all vessels of the usual native types of build, including *saltees* and *hapars* (fish cages).

Class II.—To include all steamers, flats and barges, and other square built vessels.

The net tonnage of every vessel, whether laden or empty, shall, for the purposes of Act V (B.C.) of 1864 and of these rules, be determined by the following measurements :—

Class I.—

A.—The product of one quarter the length of the vessel from stem to stern, measured along the water-line, multiplied by the interior greatest breadth of the vessel multiplied by the depth from the water-line to the interior bottom of the vessel, is to be taken as equal to the number of maunds upon which toll shall be levied.

B.—The measurement of the length is to be made in feet, rejecting inches : the measurement of breadth and depth is to be made in feet and quarters of a foot, rejecting any remainder of less than a quarter of a foot.

C.—The maundage on which the amount of toll is calculated shall be reckoned to the nearest integral multiple of 12½ maunds, any remainder of less than 12 maunds being rejected. In the case of vessels exceeding 500 maunds by measurement, the maundage shall be reckoned to the nearest integral multiple of 50 maunds, rejecting any remainder of less than 50 maunds.

D.—**Saltees.**—The product of one quarter of the inside length of the vessel measured along the centre line from stem to stern, multiplied by the interior greatest breadth of the vessel, multiplied by the greatest depth measured from the top to the interior bottom of the vessel, is to be taken as equal to the number of maunds upon which tolls shall be levied.

Class II.—

For vessels of class II the number of maunds obtained by the system of measurement prescribed for vessels of class I, shall be increased by one-half. For vessels of this class above 5,000 maunds measurement the maundage shall be reckoned to the nearest integral multiple of 500 maunds, rejecting any remainder of less than 500 maunds. In the case of steamers, the maundage determined as above shall be reduced by one-third as an allowance for engine space.

For vessels of class II which are furnished with reliable way-bills, the gross maundage of cargo shown by the way-bills, or in the case of steamers, the maundage obtained from multiplying the registered tonnage of the steamer by 27, may, at the option of the employer of the vessel or the steamer (as the case may be), be taken as the maundage on which toll will be charged :

Provided that firms or individuals, who wish to make use of this rule, must be approved by the Superintending Engineer of the Southern Circle, and that such approval may be withdrawn for any just cause.

3. Every vessel entering the canals shall be furnished with a ticket on which the name of the serang, manjee or other person in charge of the vessel, the date of entry, the maundage of the vessel, the cargo it contains, the amount of toll charged, and the number of days for which the ticket remains current, shall be entered.

4. All tolls are payable on demand and shall be paid at the toll station before a vessel is permitted to proceed : Provided that the Superintending Engineer of the Southern Circle may at his direction permit vessels belonging to individuals or firms of recognised standing to proceed without pre-payment, on an undertaking that the bills for tollage due shall be liquidated monthly on presentation.

5. The ticket must be kept on board the vessel and must be produced for inspection when demanded by any person authorised to collect tolls, or by any officer to whom such person is subordinate. If on demand the ticket is not produced, such person or officer shall assess the tollage as provided in rule 2 and shall require payment of toll, and unless and until the toll is paid, or the original ticket or a duplicate is produced as evidence that toll has already been paid, the vessel shall be liable to seizure and detention under the provisions of section IX of the Act.

6. Duplicates of lost tickets, of which the numbers and dates can be satisfactorily established, will be granted by the collector of tolls on payment of a sum of one rupee and annas eight. Provided that for tickets on which the total tollage is less than six rupees the fee to be charged for a duplicate shall be one quarter of the total tollage. The minimum fee will be eight annas per ticket.

7. A vessel which has been detained under these rules or under section IX of the Act may not be removed from the canals without the order of the collector of tolls until the toll due has been paid and a ticket obtained for presentation at the exit station. During such detention the manjee, owner or agent must make arrangements for the safety of the vessel and cargo.

8. All vessels, whether the property of Government or of private owners, are liable for toll except those specially exempted under any Government orders in force for the time being.

9. Vessels may be hauled up for repairs on the banks of the canals with the previous written permission of the supervisor appointed by the Governor in Council under section XIII. A rent calculated at one-sixth the rate of ordinary demurrage will be charged for the time the vessel occupies the bank. No vessel may be launched in the canal without the previous written permission of the supervisor.

10. At places where mooring posts have been provided by the supervisor, vessels desiring to moor shall be made fast in single line along the banks to such posts in such manner as the supervisor may direct and shall not be moored in any other manner.

11. The Superintending Engineer, Southern Circle, may fix the limit within which vessels are permitted to remain free of toll, and may also define the limits within which no loading or unloading shall be permitted.

12. No vessel whose extreme breadth including overhanging cargo exceeds 35 feet will be permitted to enter the locks at Chitpore or Dhapa : in the case of the Kulti and Bamunghatta Locks the maximum width allowable is 29 feet.

13. The supervisor may, by written notices to be posted at the toll offices, prohibit the dropping of anchors or the putting up of bamboos or *luggees* in any specified part of the canals or on the banks.

14. Vessels shall be allowed to make fast in single line along the canal banks in such manner as may be directed by the supervisor, and no vessel shall be made fast or be placed outside of vessels so secured. No vessel or raft shall be placed in such a position as to endanger the safety, or obstruct the passage, of other vessels. Every vessel shall at all times have some responsible person on board when the vessel is within the locked canals between toll stations or on Tolly's Nala.

15. Vessels passing through the canals shall keep in separate lines, in accordance with the rules in force as laid down by the Superintending Engineer, Southern Circle from time to time.

16. No person shall deposit goods of any description on the berms of the canals between the frontage roads or towpaths and the canals, except during the actual process of loading or unloading vessels, without the previous permission of the supervisor.

17. Iron built cargo boats, with outside angle irons projecting beyond the wooden fenders, will not be allowed to enter the locks unless permanent fenders are fixed over the edges of the angle irons so as to prevent them from causing damage to the lock.

18. No fire or open or unprotected light of any description shall be used on vessels containing petroleum, jute, hay or straw while in the Calcutta Canals or Tolly's Nala; and no fire or open or unprotected light (except in the case of steamers, the galley and engine-room fires and the electric light) shall be used on any vessel while in a lock basin.

19. No person shall wilfully or negligently allow a vessel to sink in the canals. No vessel which is obviously overloaded or unseaworthy will be permitted to proceed along any part of the canals until made safe to the satisfaction of the supervisor or his staff.

20. In every case of a sunken vessel, whether due to negligence or otherwise, the supervisor and his subordinates shall offer every assistance in removing the same.

If three days after the occurrence of a wreck, it is seen that prompt measures are not being taken by the owner to remove the sunken vessel from the line of navigation, the supervisor and his subordinates shall make their own arrangements for the removal of the same at the expense of the owner, provided that when the wreck obstructs the fairway they shall take immediate steps to remove the same.

21. When a sunken vessel has been recovered, the supervisor shall cause notices to be posted at the locks, toll-offices, or other prominent places, calling on those concerned to pay to the collector of tolls all toll or demurrage which may be due, as well as the expenses incurred in the recovery of the vessel and cargo; should the sum due be not paid within fifteen days of the date of notice, the boat and its furniture, or so much of it as may be necessary for the recovery of the dues, will be sold under the procedure directed in section IX of the Act.

22. The purchaser of a vessel sold under the provisions of section IX of the Act shall have the right to take it out of the canals on the day of purchase, or within such time as may be allowed by the collector of tolls, without payment of tolls.

23. When any laden vessel which has sunk has been recovered or when, any laden vessel has been seized under the provisions of the Act, or of these rules, the supervisor shall give immediate notice of the recovery or seizure to the owner of the cargo or his agent, requiring the removal of the cargo without delay, and informing him that he will be required to pay all expenses necessary for the proper custody and storage of the cargo until removed.

24. If the supervisor be unable to ascertain the name and place of business or the abode of the owner of the cargo of such vessel, the notice prescribed in rule 23 shall be effected by a notice exhibited in his office, and by advertisement in at least one English and one vernacular Calcutta newspaper.

25. Steamers are not allowed to tow flats or cargo boats in the Circular Canal, but may tow one flat or barge at a time astern in the New Cut Canal or Kristopore Canal within toll limits.

26. **Lights and signals.**—All vessels, whether travelling or moored in the Calcutta Canals or Tolly's Nala, must, between sunset and sunrise, carry a white light properly protected from the weather on the forepart of the vessel where it can be distinctly seen from all sides. All steam vessels in motion shall carry the lights prescribed by the Board of Trade Regulations. Barges or boats attached to a steam vessel, whether in motion or moored, shall carry the light prescribed above.

27. **Speed of vessels.**—Every vessel proceeding through the Calcutta Canals and Tolly's Nala must, between sunset and sunrise, limit her speed to three miles per hour.

28. For any contravention of rules 7, 11, 13, 14, 15, 16, 18, 19, 25, 26 and 27 the person in charge of the vessel or other person in fault shall, on conviction before a Magistrate, be liable to a fine not exceeding Rs. 50 or Rs. 5 a day for any continuing infringement.

29. No boats will be allowed to remain in the entrance channels to the Dhapa and Chitpore Locks.

30. The canals may be closed once a year for effecting the necessary repairs to them on one month's notice of the intention so to close them being given; but in the event of any sudden emergency the canals may be closed at any time without prior notice, and no claim in such case by owners of vessels or others for compensation on account of detention shall be entertained.

(2) That polling for the above constituency took place on the 21st and 22nd November 1923, at 32 polling stations on the first day and at 9 polling stations on the second.

(3) That the counting of votes by the Returning Officer took place on two days, namely, the 3rd and 4th December 1923, and on the last mentioned date the Respondent candidate, the said Babu Sudarsan Chakravarti, was declared elected, and his name has since been published as such in the *Calcutta Gazette* of the 12th December 1923.

(4) That your petitioner is informed and believes that the said Babu Sudarsan Chakravarti by himself and his agent or agents and by other persons acting on his behalf was guilty of various corrupt practices at the said election, such as treating and illegal payments with a view to the improper influencing of votes, and the publication of false statements with the object of prejudicing your petitioner's prospects of election, and your petitioner charges that the said election was not a free or proper election and the result of the election was materially affected by reason of the commission of the said corrupt practices.

(5) That as required by rules 35 (2) your petitioner begs to annex to this petition a list of the said corrupt practices with particulars, and craves a reference thereto as part of this petition.

(6) That your petitioner begs to deposit herewith security of the required amount for costs in one Government Currency Note of Rs. 1,000.

(7) That the Respondent candidate has not yet submitted his return of election expenses, but as an early enquiry is necessary in the interests of purity of election and general administration, your petitioner is filing this election petition without waiting for the submission of the said return of expenses, and your petitioner reserves the right of adding to or altering this petition, if necessary, after the said return is filed.

Under the circumstances your petitioner prays that it may be determined that the said Babu Sudarsan Chakravarti was not duly elected or returned and that the said election may be declared null and void, and your petitioner further prays for the costs of this petition.

And your petitioner as in duty bound shall ever pray.

LIST OF CORRUPT PRACTICES REFERRED TO IN THE ANNEXED PETITION.

1. Treating.—Sumptuous refreshments (such as *loochis*, *dahi*, *chira*, rice, fish, etc., *pan*, *cheroot*, and in one case, viz., at Tanor pachai drink) were provided for voters with a view to influencing their votes at various polling stations on the respective dates of polling, *e.g.*, at—

Nator, Takiarhat, Madhnagar, Lalore, Kalam, Walia and Lalpur in the Nator subdivision,
Naogaon, Mohadebpur, Panchupur and Badalgachi in the Naogaon subdivision and
Nohata, Durgapur, Bagmara, Tanor, Godagari, Jhalmalia, Charghat and Sardah in the Sadar subdivision.

The arrangements for these entertainments were supervised by the following persons amongst others :—

Babu Sudarsan Chakravarti's brother Babu Anukul Chandra Chakravarti at Madnagar,
Babu Sudarsan Chakravarti's nephew and election agent Babu Akhil Chandra Chakravarti at Kalam,
Babu Sudarsan Chakravarti's son Babu Suprakash Chakravarti at Tanor,
Babus Bhupendra Nath Khan, Jitendra Nath Khan, Jogesh Chandra Ray (Mukhtear) and Indu Sidhanta (Pleader) at Nator,
Babus Jnanendra Mohan Sanyal and Probodh Chakravarti (Pleader) at Lalore,
Babu Bisweswar Roy (Pleader) at Naogaon,
Babu Mahim Chandra Ghosh at Mahadebpur,
Babu Tarini Mandal at Naohata,
Babu Lalit Mohon Chatterjee at Godagari,
Babus Surendra Nath Maitra and Sarat Chandra Maitra at Jhelmalia,
Babu Surendra Nath Maitra's son at Charghat and Sardah, and by other relations and agents of Babu Sudarsan Chakravarti at other places.

II. Illegal payments.—Cash payments were made to several poor voters (names not all known) for getting their votes, and many voters were employed for pecuniary reward ostensibly as canvassers thus—

(1) Rupees 5 was paid to Girish Chandra Sarkar and Jay Chandra Shaha, two voters of Jugishon, and Rs. 6 was paid to Sriram Pramanik and another voter of Jaikristapur at Durgapur polling station on the polling date, by the agent of Babu Sudarsan Chakravarti.

(2) Money was also paid (amount not known) to Kailas Chandra Sarkar, Bissweswar Sarkar, Rasik Chandra Acharyya and other voters at Takiarhat polling station on the date of polling, by the agent of Babu Sudarsan Chakravarti.

(3) Rupee 1 per head was also paid to Chandra Kanta Saha, of Kassimpur, Durlav Pal of Basudebpur, Ramnarain Sarkar, of Hat Gobindpur, Iswar Chandra Ghosh, of Karimpore, and other voters of Godagari police-station before the date of election, by Babu Lalit Mohan Chatterjee on behalf of Babu Sudarsan Chakravarti.

(4) Payments were also made at Godagari and Naohata polling station on the polling date to several voters on account of their conveyance.

III. Publication of false statements.—Leaflets were circulated with misleading suggestions and false statements with the knowledge and connivance of the respondent candidate which were calculated to and did influence a large number of voters all over the district against the petitioner.

This was done only a few days before the polling, when there was little time left to the petitioner to contradict, or to warn the voters fully.

It was alleged in these leaflets among other things that the petitioner had voted against the transferability of jote land, and cutting of trees on jote lands and stoppage of excessive enhancement of rent and otherwise acted against the interest of raiyats, which allegations were all false and false to the knowledge of the respondent candidate and his agents and other persons who circulated the same. The circulation of these false allegations was persisted in even after the issue of a contradiction by the petitioner.

Mahadebpur voters were induced to believe that the Mahadebpur registration office would be soon removed to Kirtipore in consequence of the establishment of a registration office at Madaripore, and Godagari voters were falsely induced to believe that the Godagari registration office had been unjustly removed to Madaripore through the machination of the petitioner.

Malicious insinuations were circulated against the petitioner regarding his work during the last flood and bridging the breaches in the Natore road.

Copies of the leaflets containing the false statements are attached herewith along with the contradiction issued by the petitioner.

Apart from the leaflets, other false allegations were also spread against the petitioner by Babu Probodh Chandra Chakravarti, pleader, an agent of the respondent candidate, amongst others, to the effect that the petitioner was responsible for increasing the rates of postage and the enhancement of the salt duty.

VERIFICATION.

Verified that the foregoing statements are made on information received and believed to be true. This verification is signed by me at No. 36, Lansdowne Road, Calcutta, on the 31st December 1923.

DEPARTMENT OF AGRICULTURE, BENGAL.

Final Report on the Cotton Crops of Bengal, 1923-24.

(NOTE.—On an average of the five years ending 1921-22, the area under the cotton crops in Bengal has represented some 0·2 per cent. of the total area under cotton in India.)

THERE are two crops—early and late. The "early" crop is chiefly grown in the Chittagong Hill Tracts and in the Tripura State and to a small extent also in other districts. The "late" crop is chiefly grown in Bankura and Midnapore.

Character of the season.—The weather in the important districts was more favourable than last year for the early crop, and a satisfactory outturn was obtained in consequence.

The late crop on the other hand suffered through absence of rain from the end of October onwards.

Area sown.—The total area sown with early cotton is returned at 69,601 acres and that with late at 1,437 acres against 70,298 acres and 1,500 acres, respectively, in the corresponding forecast of last year.

Outturn.—The outturn of the early crop is estimated at 21,128 bales and the late crop at 326 bales against 17,036 bales and 450 bales, respectively, in the corresponding forecast of the last year.

(*j*) No more passengers shall be carried than can with safety be accommodated in the ship's boats in case of accident, unless the vessel is a coasting one proceeding on a short voyage and there are provided life-belts sufficient for such passengers as cannot be accommodated in the boats.

(*k*) At any port in which a ship carrying petroleum is for the time being, the Chief Customs Officer or such other Officer as the Chief Customs Officer may nominate in this behalf, may take and test any consignment of such petroleum or any single case or drum thereof.

The net tonnage of every vessel, whether laden or empty, shall, for the purposes of Act V (B.C.) of 1864 and of these rules, be determined by the following measurements :—

Class I.—

A.—The product of one quarter the length of the vessel from stem to stern, measured along the water-line, multiplied by the interior greatest breadth of the vessel multiplied by the depth from the water-line to the interior bottom of the vessel, is to be taken as equal to the number of maunds upon which toll shall be levied.

B.—The measurement of the length is to be made in feet, rejecting inches: the measurement of breadth and depth is to be made in feet and quarters of a foot, rejecting any remainder of less than a quarter of a foot.

C.—The maundage on which the amount of toll is calculated shall be reckoned to the nearest integral multiple of 12½ maunds, any remainder of less than 12½ maunds being rejected. In the case of vessels exceeding 500 maunds by measurement, the maundage shall be reckoned to the nearest integral multiple of 50 maunds, rejecting any remainder of less than 50 maunds.

D.—**Saltees.**—The product of one quarter of the inside length of the vessel measured along the centre line from stem to stern, multiplied by the interior greatest breadth of the vessel, multiplied by the greatest depth measured from the top to the interior bottom of the vessel, is to be taken as equal to the number of maunds upon which tolls shall be levied.

Class II.—

For vessels of class II the number of maunds obtained by the system of measurement prescribed for vessels of class I, shall be increased by one-half. For vessels of this class above 5,000 maunds measurement the maundage shall be reckoned to the nearest integral multiple of 500 maunds, rejecting any remainder of less than 500 maunds. In the case of steamers, the maundage determined as above shall be reduced by one-third as an allowance for engine space.

For vessels of class II which are furnished with reliable way-bills, the gross maundage of cargo shown by the way-bills, or in the case of steamers, the maundage obtained from multiplying the registered tonnage of the steamer by 27, may, at the option of the employer of the vessel or the steamer (as the case may be), be taken as the maundage on which toll will be charged :

Provided that firms or individuals, who wish to make use of this rule, must be approved by the Superintending Engineer of the Southern Circle, and that such approval may be withdrawn for any just cause.

3. Every vessel entering the canals shall be furnished with a ticket on which the name of the serang, manjee or other person in charge of the vessel, the date of entry, the maundage of the vessel, the cargo it contains, the amount of toll charged, and the number of days for which the ticket remains current, shall be entered.

4. All tolls are payable on demand and shall be paid at the toll station before a vessel is permitted to proceed: Provided that the Superintending Engineer of the Southern Circle may at his direction permit vessels belonging to individuals or firms of recognised standing to proceed without pre-payment, on an undertaking that the bills for tollage due shall be liquidated monthly on presentation.

5. The ticket must be kept on board the vessel and must be produced for inspection when demanded by any person authorised to collect tolls, or by any officer to whom such person is subordinate. If on demand the ticket is not produced, such person or officer shall assess the tollage as provided in rule 2 and shall require payment of toll, and unless and until the toll is paid, or the original ticket or a duplicate is produced as evidence that toll has already been paid, the vessel shall be liable to seizure and detention under the provisions of section IX of the Act.

6. Duplicates of lost tickets, of which the numbers and dates can be satisfactorily established, will be granted by the collector of tolls on payment of a sum of one rupee and annas eight. Provided that for tickets on which the total tollage is less than six rupees the fee to be charged for a duplicate shall be one quarter of the total tollage. The minimum fee will be eight annas per ticket.

7. A vessel which has been detained under these rules or under section IX of the Act may not be removed from the canals without the order of the collector of tolls until the toll due has been paid and a ticket obtained for presentation at the exit station. During such detention the manjee, owner or agent must make arrangements for the safety of the vessel and cargo.

8. All vessels, whether the property of Government or of private owners, are liable for toll except those specially exempted under any Government orders in force for the time being.

9. Vessels may be hauled up for repairs on the banks of the canals with the previous written permission of the supervisor appointed by the Governor in Council under section XIII. A rent calculated at one-sixth the rate of ordinary demurrage will be charged for the time the vessel occupies the bank. No vessel may be launched in the canal without the previous written permission of the supervisor.

10. At places where mooring posts have been provided by the supervisor, vessels desiring to moor shall be made fast in single line along the banks to such posts in such manner as the supervisor may direct and shall not be moored in any other manner.

11. The Superintending Engineer, Southern Circle, may fix the limit within which vessels are permitted to remain free of toll, and may also define the limits within which no loading or unloading shall be permitted.

12. No vessel whose extreme breadth including overhanging cargo exceeds 35 feet will be permitted to enter the locks at Chitpore or Dhapa: in the case of the Kulti and Bamunghatta Locks the maximum width allowable is 29 feet.

13. The supervisor may, by written notices to be posted at the toll offices, prohibit the dropping of anchors or the putting up of bamboos or *luggees* in any specified part of the canals or on the banks.

14. Vessels shall be allowed to make fast in single line along the canal banks in such manner as may be directed by the supervisor, and no vessel shall be made fast or be placed outside of vessels so secured. No vessel or raft shall be placed in such a position as to endanger the safety, or obstruct the passage, of other vessels. Every vessel shall at all times have some responsible person on board when the vessel is within the locked canals between toll stations or on Tolly's Nala.

15. Vessels passing through the canals shall keep in separate lines, in accordance with the rules in force as laid down by the Superintending Engineer, Southern Circle from time to time.

16. No person shall deposit goods of any description on the berms of the canals between the frontage roads or towpaths and the canals, except during the actual process of loading or unloading vessels, without the previous permission of the supervisor.

17. Iron built cargo boats, with outside angle irons projecting beyond the wooden fenders, will not be allowed to enter the locks unless permanent fenders are fixed over the edges of the angle irons so as to prevent them from causing damage to the lock.

18. No fire or open or unprotected light of any description shall be used on vessels containing petroleum, jute, hay or straw while in the Calcutta Canals or Tolly's Nala ; and no fire or open or unprotected light (except in the case of steamers, the galley and engine-room fires and the electric light) shall be used on any vessel while in a lock basin.

19. No person shall wilfully or negligently allow a vessel to sink in the canals. No vessel which is obviously overloaded or unseaworthy will be permitted to proceed along any part of the canals until made safe to the satisfaction of the supervisor or his staff.

20. In every case of a sunken vessel, whether due to negligence or otherwise, the supervisor and his subordinates shall offer every assistance in removing the same.

If three days after the occurrence of a wreck, it is seen that prompt measures are not being taken by the owner to remove the sunken vessel from the line of navigation, the supervisor and his subordinates shall make their own arrangements for the removal of the same at the expense of the owner, provided that when the wreck obstructs the fairway they shall take immediate steps to remove the same.

21. When a sunken vessel has been recovered, the supervisor shall cause notices to be posted at the locks, toll-offices, or other prominent places, calling on these concerned to pay to the collector of tolls all toll or demurrage which may be due, as well as the expenses incurred in the recovery of the vessel and cargo ; should the sum due be not paid within fifteen days of the date of notice, the boat and its furniture, or so much of it as may be necessary for the recovery of the dues, will be sold under the procedure directed in section IX of the Act.

22. The purchaser of a vessel sold under the provisions of section IX of the Act shall have the right to take it out of the canals on the day of purchase, or within such time as may be allowed by the collector of tolls, without payment of tolls.

23. When any laden vessel which has sunk has been recovered or when, any laden vessel has been seized under the provisions of the Act, or of these rules, the supervisor shall give immediate notice of the recovery or seizure to the owner of the cargo or his agent, requiring the removal of the cargo without delay, and informing him that he will be required to pay all expenses necessary for the proper custody and storage of the cargo until removed.

24. If the supervisor be unable to ascertain the name and place of business or the abode of the owner of the cargo of such vessel, the notice prescribed in rule 23 shall be effected by a notice exhibited in his office, and by advertisement in at least one English and one vernacular Calcutta newspaper.

25. Steamers are not allowed to tow flats or cargo boats in the Circular Canal, but may tow one flat or barge at a time astern in the New Cut Canal or Kristopore Canal within toll limits.

26. **Lights and signals.**—All vessels, whether travelling or moored in the Calcutta Canals or Tolly's Nala, must, between sunset and sunrise, carry a white light properly protected from the weather on the forepart of the vessel where it can be distinctly seen from all sides. All steam vessels in motion shall carry the lights prescribed by the Board of Trade Regulations. Barges or boats attached to a steam vessel, whether in motion or moored, shall carry the light prescribed above.

27. **Speed of vessels.**—Every vessel proceeding through the Calcutta Canals and Tolly's Nala must, between sunset and sunrise, limit her speed to three miles per hour.

28. For any contravention of rules 7, 11, 13, 14, 15, 16, 18, 19, 25, 26 and 27 the person in charge of the vessel or other person in fault shall, on conviction before a Magistrate, be liable to a fine not exceeding Rs. 50 or Rs. 5 a day for any continuing infringement.

29. No boats will be allowed to remain in the entrance channels to the Dhapa and Chitpore Locks.

30. The canals may be closed once a year for effecting the necessary repairs to them on one month's notice of the intention so to close them being given ; but in the event of any sudden emergency the canals may be closed at any time without prior notice, and no claim in such case by owners of vessels or others for compensation on account of detention shall be entertained.

versus

(1) Rai Bahadur Pyari Lal Das, M.B.E., son of late Suklal Das Poddar, of 32, Sutrapur Road, Dacca, (2) Babu Dhirendra Chandra Roy, son of Babu Ananda Chandra Roy, of Ananda Chandra Roy Street, Dacca, (3) Babu Satish Chandra Sarkar, son of late Umesh Chandra Sarkar, Principal, National College, resident of Gandaria, Dacca ... ... *Respondents.*

The humble petition of the petitioner above mentioned, most respectfully sheweth:—

MAY IT PLEASE YOUR EXCELLENCY,

1. That for the purpose of the last Bengal Council general election of the Non-Muhammadan constituency of the Dacca city, it was divided into 7 electoral areas corresponding to the 7 wards of the Dacca Municipality. The names of the polling officers and the polling stations for those electoral areas are given hereunder as follows:—

Ward.	Station		Polling officer.
1.	Northbrook Hall	...	Babu Probode Ch. Roy, Munsif.
2.	Moslem High School	...	„ Girish Ch. Nag, Deputy Magistrate.
3.	Wari Girls' School	...	„ Jamini K. Roy, Munsif, and „ Jatindra K. Bose, Munsif.
4.	Malitola Girls' School	...	Mr. W. C. Carter, I.C.S., and Babu Monoranjan Das, Sub-Registrar.
5.	Medical School	...	Babu Romes Ch. Sen, Munsif.
6.	Nabakumar High School	...	Birendra Nath Ghose, Deputy Magistrate.
7.	Nababganj Girls' School	...	Atal Behari Dutt, Munsif.

2. That the said election for wards 5 and 6 was held on the 20th November 1923 and for wards 1, 2, 3, 4 and 7 was held on the 23rd November 1923.

3. That the petitioner and the respondents were nominated as candidates for election from the aforesaid constituency at the last general election of the Bengal Legislative Council and that the petitioner polled 489 votes, respondent No. 1 polled 518 votes, respondent No. 2 polled 452 votes and respondent No. 3 polled 312 votes and consequently the respondent No. 1 was declared "returned" as a member of the said Council.

4. That the respondent No. 1 submitted his return of election expenses on the 22nd December 1923.

5. That the declaration about respondent No. 1 as elected and returned and his election as member of the Bengal Legislative Council are illegal and void and should be so held on the following amongst other grounds:—

For that the election of respondent No. 1 was not the result of a free election but was procured and induced by corrupt practices by which the result of the election was materially affected and vitiated, viz.,

(*i*) Bribery—Instances thereof are given below:—

(*a*) Payment of Rs. 1,200 or thereabout on behalf of respondent No. 1 to voters of Thataribazar and Juginagar in ward 3 for the cost of obtaining electric lights with a view to secure the votes of those quarters and also for the payment of a portion of the said sum to the poor voters.

(*b*) Payment of Rs. 300 or thereabout to certain voters of holding No. 2, Goilara Lane in ward 3 for repairs of their Thakurbari with a view to secure their votes and votes of others of the locality for respondent No. 1.

(*c*) Payment of Rs. 100 or thereabout to one Jarasindhu Risi and other Rishis of Choudhury Bazar in ward 7 to secure their votes for respondent No. 1.

(*ii*) Offer of bribes:—

(*a*) Promise of payment of a further sum of Rs. 800 or thereabout to the voters of Thataribazar and Juginagar in ward 3 to supplement the payment of Rs. 1,200 mentioned above, if they would vote for respondent No. 1.

(*b*) Promise of reclaiming the tank at Puran Moghultuly in ward 4 if the voters of the locality would vote for respondent No. 1.

(*iii*) False personation:—

Reception of the vote of a certain person produced to vote in the name of a registered voter of Sashi Mohan Bysack Lane in ward 3 who has not been heard of for many years.

(*iv*) Attempt to false personation:—

One Kanchan Muchi of ward 5 had been long dead, and a man was introduced on behalf of respondent No. 1 to vote for him but ultimately when challanged the man did not dare to record his vote.

(*v*) That there have been numerous instances of corrupt practices on behalf of respondent No. 1, the details of which your petitioner craves leave to submit hereafter.

A list setting forth the particulars of some of the said corrupt practices is enclosed herewith.

6. That in addition to the aforesaid grounds your petitioner humbly begs to urge the following amongst other grounds which would render the general election null and void and liable to be set aside.

(*a*) That the result of the election has been materially affected by the improper reception of the votes of certain persons bearing names not identical with those appearing in the finally published list.

(*b*) That in counting the votes the provisions of Regulation XLVII (*1*) (*a*) were not observed inasmuch as some of the ballot papers had not the official mark on their back which fact was brought to the notice of the Returning Officer but was disallowed.

(*c*) That in ward No. 3 there were 2 polling officers, Babu Jatindra Kumar Bose and and Babu Jamini K. Roy. A little after 2 P.M. the said officers suspended polling and took tiffin for more than 15 minutes and then recommenced and continued taking votes till 3 P.M. when the enclosure was closed. Many voters who had attended the polling station to vote for the petitioner and had been waiting for a long time without meal went away, seeing that the polling officers were engaged in taking tiffin specially as they had not announced the hour when they would recommence taking votes. The voters who went away were also under the impression that the time taken by their luncheon would be allowed and added after the prescribed hours, *i.e.*, after 3 P.M. Some of those voters came back a few minutes after 3 P.M. and found that the gate was closed and they were not admitted into the enclosure, while others did not turn up having been annoyed with the above conduct of the polling officers. The polling officers thus violated the provisions of Regulation XXV. If the above voters had all been allowed to vote, most of them would have voted for the petitioner.

(*d*) That in a few instances in ward 6 the secrecy of voting was not observed inasmuch as the names of the candidates in whose favour the votes were given were uttered in an unnecessarily loud voice, with the result that they were audible to those present at the polling booth.

(*e*) That in ward 7 the polling officer in almost all cases saw the marks put against the names of the candidates for whom the electors voted; the secrecy of voting enjoined by regulation XXXIII was thus not observed.

7. That the petitioner is a Hindu and is about 54 years old, is a permanent resident in the city of Dacca and has paid more than Rs. 1-8 municipal taxes during the year preceding the year of election. In fact he has been paying each year much more than Rs. 1-8 as municipal taxes for his houses in the city of Dacca for more than ten years. His name was duly registered in the electoral roll and his nomination was duly proposed and seconded by registered electors and the Returning Officer granted a certificate of scrutiny and delivery. Thus the petitioner was fully qualified to stand as a candidate for election as a member of the Bengal Legislative Council.

8. That the petitioner firmly believes that he would have been returned as a successful candidate, if respondent No. 1 had not procured votes by the illegal means noted above.

9. A sum of Rs. 1,000 only, by G. C note No. P.D.-51—92955, dated 23rd February 1918, Calcutta, has this day been sent to the address of the Chief Secretary to the Government of Bengal, Calcutta.

10. That as respondent No. 1 is a very influential gentleman in the city of Dacca, the petitioner most humbly prays that if any non-official Commissioner is to be appointed then no gentleman of this district or residing in this city should be appointed a Commissioner.

11. That your petitioner therefore prays :

(*a*) that your Excellency will be graciously pleased to set aside the election of respondent No. 1 and declare your petitioner duly elected,

(*b*) that if your Excellency considers the election to be vitiated by the aforesaid irregularities your Excellency may be graciously pleased to set aside the whole election,

(*c*) that for giving reliefs prayed for above your Excellency will be pleased to pass any such orders as your Excellency deems fit and proper.

And your Excellency's humble petitioner as in duty bound shall ever pray.

The facts stated in paragraphs 1, 2, 3, 4, 6 (*a*) and (*b*) and first part of sub-paragraph (*c*) up to the words "when the enclosure was closed," paragraph 7 and first part of paragraph 10 above are true to my knowledge and those stated in the rest of the petition are true to my information and belief.

I sign this verification this 30th December 1923, at my house No. 14 (new 24), Taker Hat Lane, Nawabpur, in the city of Dacca.

In the matter of an election petition under the Bengal Electoral Rules against the candidate Maulvi Kader Bux returned from the Dinajpur Mahomedan Constituency.

The humble petition of Yaquinuddin Ahmed, a candidate for election to the Bengal Legislative Council from the Dinajpur Mahomedan Constituency,

RESPECTFULLY SHEWETH—

1. That your Excellency's petitioner and Maulvi Kader Bux and Munshi Mafizuddin Chaudhury were the three candidates for election to the Bengal Legislative Council from the Dinajpur Mahomedan Constituency and that after the polling was over the aforesaid Maulvi Kader Bux was declared to be elected by the Returning Officer of Dinajpur

on the 30th November 1923, who announced at the time of such declaration that Maulvi Kader Bux secured 4,380, Munshi Mafizuddin Chaudhury 1,304, and your Excellency's petitioner 190 votes only.

2. That your Excellency's petitioner begs to state that the election of the aforesaid candidate Maulvi Kader Bux was procured through corrupt practice and is so liable to be set aside.

3. That the aforesaid corrupt practice committed by the aforesaid returned candidate consists firstly of publication of and making false statements by himself and other person on his behalf within the meaning of clause 4 of Part I of Schedule V and secondly of "Personation" within the meaning of clause 3 of the same part and of the same schedule and thirdly of fraudulent issuing of circular without the name of the publisher within the meaning of clause 8 of Part II of Schedule V of the Bengal Electoral Rules.

4. That for the purpose of making the first aforesaid charge of "publication of false statement" clear your petitioner begs leave to state that your petitioner was an elected member of the Bengal Legislative Council for the last three years and was appointed a member of the committee to consider the amendment of the Bengal Tenancy Act by the Government resolution No. 7583L.R., dated the 20th August 1921, and that the report of the said body of members contained, among other things, a statement by way of a brief summary of the clause 22 of the draft bill, at the end of the 8th paragraph thereof, regarding the transferability of the occupancy holdings purporting to give the landlord the right of pre-emption or subsequent purchase on payment of the amount of the consideration money together with a compensation of 10 per cent.

5. That although such was the report on the point of the whole body of the members of the aforesaid committee, their recommendation to the Government as embodied in the 8th paragraph thereof was that their full report and the draft bill should be circulated for the purpose of obtaining public opinion on that intricate problem before a bill was introduced in the Legislative Council.

6. That your petitioner in the capacity of a member of the aforesaid committee signed the said report subject to a joint minute of dissent which contained, amongst other things, a strong disapproval of the aforesaid proposal of the right of pre-emption to be given to the landlords in cases of transfers of occupancy holdings as well as of fixing the amount of landlord's fee to the extent of 25 per cent. of the purchase money in the following words in paragraphs 6 and 7 of page 61, marked A, in page 71, marked B, and also in paragraph 5 of page 75, marked C, of the minute of dissent :—

A.

"We think there should be only one mode of assessment of nazar on transfer and not an inflexible one should be fixed and no pre-emption should be allowed to landlord. We have dealt with all questions in connection with transfer of occupancy holdings in our notes on clause 22.

"The right of pre-emption as it is called should not be allowed to the landlord. It is a false hope that the zamindars by the exercise of the prerogative will keep off the money-lender and have the land for the cultivators only. For to the landlord (zamindar) the money-lender with his long and weighty purse is the most desirable person and the best friend on earth. He can pay or lend as much as the landlord (zamindar) requires."

B.

"This section fixes the landlord's fee on occupancy holding 'at 25 per cent.' of the consideration money or six times the annual rent of the holding, whichever is more. We think—

"(1) (*a*) Only one mode of assessment of the landlord's fee should be adopted, either a certain percentage of the consideration money or certain times of the annual rent, preferably the former.

"(*b*) If the landlord's fee is to be fixed in the alternative form as it is, in place of the words 'whichever is more', there should be the words 'whichever is less.'

"(2) The maximum rate but not a fixed one should be adopted.

"(3) That the maximum rate should not exceed 12½ per cent. of the consideration money or three times the annual rent."

"(4) In all cases of transfer whether in and out of court the payment of the landlord's fee should be a matter to be transacted between the parties.

"(5) The existing right of transfer by raiyats of occupancy holding in any locality without landlord's consent should be maintained. The right is shown in the settlement records."

C

"The right of pre-emption or post-emption should not be given to the landlord.

"1. The landlords want it as a safeguard against—

(*a*) Undesirable persons coming in.

(*b*) Undervaluation.

"(*a*) As to avoiding undesirable persons we may ask, who are the undesirable and who are the desirable persons? A tenant who is already in the estate and passes to be a good one is certainly not an undesirable person. The zamindar if required will himself give him a good character certificate, but yet the prerogative is to be exercised against him.

The truth has been said by a landlord himself that the chief value of pre-emption was to guard against undervaluation. The zamindar did not in fact lay great weight upon it as a safeguard for keeping out undesirable persons coming in as long as any person paid the *salami*.

"(*b*) So the value of the prerogative of pre-emption or post-emption is admitted to be not as against the undesirable person as in fact there are no such persons in the eye of the zamindar if he can pay money, but against undervaluation. A highly cultured gentleman's remark to this was 'if it was the main object of the pre-emption clauses it will be an advantage to cut them out altogether, and to give the zamindar a right of appealing to the court on the ground of undervaluation in every case of transfer.'

"We think this is the proper course and this should be adopted. There will then be one procedure to be followed."

7. That the aforesaid returned candidate Maulvi Kader Bux during his canvassing for the election issued a large number of circulars or broad sheets, 5,000 in number, of which a copy is herewith annexed and marked Ex. "A", which he got printed at the Bina Press, Dinajpur.

8. That in those circulars Maulvi Kader Bux made it appear before the voters amongst whom the circulars were distributed broadcast and most of whom are the occupancy raiyats among whom the transfers of occupancy holding are very common, and who are taking a very keen interest in the subject of the transferability of occupancy holdings since a long time, that your petitioner as a member of the Legislative Council and as a member of the aforesaid committee appointed to consider the amendment of the Bengal Tenancy Act did a great disservice to their cause by unreservedly recommending the proposal of granting the right of pre-emption to the landlord and the payment of the landlord's fee 25 per cent. of the consideration money soon after the sale, to be passed into law.

9 That the object of the returned candidate Maulvi Kader Bux in issuing such circulars amongst the voters before election obviously was to prejudice the prospect of your petitioner's election, and that in fact such publication of false statements that your petitioner was one of those members of the aforesaid committee who recommended such proposal of granting the right of pre-emption to the landlords, and as well as of making a change in the existing practice of payment of the landlord's fee after the sale, did your petitioner great and incalculable injury in the matter of his election inasmuch as most of the voters who are the occupancy raiyats were made to believe thereby that your petitioner's conduct as a member of the Legislative Council and as a member of the Bengal Tenancy Act Amendment Committee was antagonistic to their cherished interests, and that Maulvi Kader Bux knew the above statements to be false.

10 That inasmuch as the returned candidate Maulvi Kader Bux published such false statements regarding the conduct of your petitioner as a member of the Legislative Council and also as a member of the Bengal Tenancy Act Amendment Committee knowing the same to be false, the said returned candidate has been guilty of the corrupt practice as specified in clause 4 of Part I of Schedule V of the Bengal Electoral Rules.

11. That as the said returned candidate in issuing the aforesaid circulars did not publish his name on their face with a corrupt intention, the said candidate Maulvi Kader Bux is further guilty of the corrupt practice specified in clause 8 of Part II of the Bengal Electoral Rules.

12. That the said returned candidate further committed the corrupt practice as specified in clause 3 of Part I of Schedule V in two instances :

(*a*) Firstly, in that his agent Azimuddin Pandit, resident of Kalikapur, who worked as such in some villages under the Parbatipur thana before the election as well as at the time of polling on the 22nd November, at the polling station of the Habra School, in police-station Parbatipur, produced a man named Mazaruddin Mondal of Joypur as voter No. 34 of union 8 of the Parbatipur thana named Jhoru Mamud Mandal, son of Mamulla Mandal, of Joypur, who did not appear at the polling station, and that the said agent Azimuddin Pandit caused the aforesaid Mazaruddin Mandal to apply for a voting paper in the name of the aforesaid absent voter Jhoru Mamud Mandal and that the said Mazaruddin Mandal with the connivance and under the encouragement of the aforesaid agent Azimuddin Pandit further represented himself before the presiding officer to be the aforesaid absent voter Jhoru Mamud Mandal, son of Mamulla Mandal, whereupon the polling agent of the candidate Munshi Mafizuddin Chaudhury named Raisuddin Ahmed Chaudhury, declared and undertook to prove before the presiding officer that the aforesaid Mazaruddin Mandal thus applying for the ballot paper in the name of the aforesaid absent voter Jhoru Mamud Mandal committed the offence of personation and that thereupon the presiding officer the Sub-Registrar of Parbatipur Babu Saroj Kumar Sen, assisted by the polling officer under clause 38 of the Bengal Electoral Regulations complying with all the requirements laid down therein, allowed him to vote which he did and that in accordance with the aforesaid regulation the aforesaid presiding officer under the circumstances stated above entered the name and address of the aforesaid absent voter Jhoru Mamud Mandal in the challenged vote list with Mazaruddin Mandal's thumb impression in form 3. That the said Maulvi Kader Bux lodged his return of election expenses and declarations on the 8th January 1924, and your petitioner states that they are not correct regarding his agents and other matters.

(*b*) And, secondly, in that the returned candidate Maulvi Kader Bux himself produced at the polling station, in the office of the Dinajpur Municipality at the time of the polling of the Mahomedan voters of the Ward D of the Dinajpur Municipality on the 22nd November 1923, a man who gave out his name to be Kafuruddin Sheikh and his father's name to be one other than Abdul Hakim who under the encouragement and with the connivance of the aforesaid returned candidate represented himself to be the voter No. 36 of the Ward D of the Dinajpur Municipality, who bears the same name but whose father's name is Abdul Hakim and that your petitioner having been present there at the time, challenged before the presiding officer that the man was not the real voter himself, but the aforesaid returned candidate Maulvi Kader Bux declaring that the aforesaid person whom he produced was the voter himself caused him by his encouragement to apply for the ballot paper in the name of the aforesaid absent voter No. 36 and that under the circumstances the presiding officer Babu Phani Bhusan Ghose and the polling officer complying with all the requirements of the clause 38 of the Bengal Electoral Regulations allowed him to vote which he did after entering his name and address in a challenged vote list with his thumb impression and that afterwards the aforesaid real voter having appeared at the polling for recording his vote the same was allowed in a tendered ballot paper under clause 37 of the Regulations.

Your petitioner prays therefore that the election of the aforesaid returned candidate Maulvi Kader Bux be set aside and that your petitioner may be awarded his costs.

That your petitioner further prays that in the event of the election of the aforesaid returned candidate being set aside and Munshi Mafizuddin Chaudhury, who stood second in the election having agreed that he will not claim his preferential rights, your petitioner may be declared duly elected as a member of the Bengal Legislative Council from the Mahomedan Constituency of Dinajpur and pass any other order that your Excellency may deem fit under the circumstances of the case.

And your petitioner as in duty bound shall ever pray.

Appendix A.

List under provision of clause 2 of rule 33 of the Bengal Electoral Rules.

1. Publication of false statements as specified in clause 4, Part I of Schedule V by the aforesaid returned candidate Maulvi Kader Bux in the month of October and November of 1923, in the Dinajpur district, of which the full particulars have been set forth in the body of the accompanying petition.

2. Corrupt practice of issuing circular without publisher's name printed thereon as specified in the clause 8 of Part II of Schedule V of Bengal Electoral Rules in the months of October and November 1923, in the Dinajpur district.

3. Corrupt practice of personation as specified in clause 3, Part I of Schedule V of Bengal Electoral Rules committed by the agent of the aforesaid returned candidate Maulvi Kader Bux named Azimuddin Pandit of Kalikapur, police-station Parbatipur, district Dinajpur, as well as by Mazaruddin Mandal, son of late Kholai Mandal, of Joypur, police-station Parbatipur, district Dinajpur, on the 22nd of November 1923, at the polling station at the Habra School, in police-station Parbatipur, district Dinajpur.

4. Corrupt practice of personation as specified in clause 3 of Part I of Schedule V, Bengal Electoral Rules, committed by the aforesaid returned candidate Maulvi Kader Bux himself as well as by Kofuruddin Sheikh, resident of Ward D, in the Dinajpur Municipality on the 22nd of November 1923, at the polling station of Ward D at the office of the Dinajpur Municipality.

(SD). YAQUINUDDIN AHMED.

The truth has been said by a landlord himself that the chief value of pre-emption was to guard against undervaluation. The zamindar did not in fact lay great weight upon it as a safeguard for keeping out undesirable persons coming in as long as any person paid the *salami*.

"(*b*) So the value of the prerogative of pre-emption or post-emption is admitted to be not as against the undesirable person as in fact there are no such persons in the eye of the zamindar if he can pay money, but against undervaluation. A highly cultured gentleman's remark to this was 'if it was the main object of the pre-emption clauses it will be an advantage to cut them out altogether, and to give the zamindar a right of appealing to the court on the ground of undervaluation in every case of transfer.'

"We think this is the proper course and this should be adopted. There will then be one procedure to be followed."

7. That the aforesaid returned candidate Maulvi Kader Bux during his canvassing for the election issued a large number of circulars or broad sheets, 5,000 in number, of which a copy is herewith annexed and marked Ex. "A", which he got printed at the Bina Press, Dinajpur.

8. That in those circulars Maulvi Kader Bux made it appear before the voters amongst whom the circulars were distributed broadcast and most of whom are the occupancy raiyats among whom the transfers of occupancy holding are very common, and who are taking a very keen interest in the subject of the transferability of occupancy holdings since a long time, that your petitioner as a member of the Legislative Council and as a member of the aforesaid committee appointed to consider the amendment of the Bengal Tenancy Act did a great disservice to their cause by unreservedly recommending the proposal of granting the right of pre-emption to the landlord and the payment of the landlord's fee 25 per cent. of the consideration money soon after the sale, to be passed into law.

9. That the object of the returned candidate Maulvi Kader Bux in issuing such circulars amongst the voters before election obviously was to prejudice the prospect of your petitioner's election, and that in fact such publication of false statements that your petitioner was one of those members of the aforesaid committee who recommended such proposal of granting the right of pre-emption to the landlords, and as well as of making a change in the existing practice of payment of the landlord's fee after the sale, did your petitioner great and incalculable injury in the matter of his election inasmuch as most of the voters who are the occupancy raiyats were made to believe thereby that your petitioner's conduct as a member of the Legislative Council and as a member of the Bengal Tenancy Act Amendment Committee was antagonistic to their cherished interests, and that Maulvi Kader Bux knew the above statements to be false.

10 That inasmuch as the returned candidate Maulvi Kader Bux published such false statements regarding the conduct of your petitioner as a member of the Legislative Council and also as a member of the Bengal Tenancy Act Amendment Committee knowing the same to be false, the said returned candidate has been guilty of the corrupt practice as specified in clause 4 of Part I of Schedule V of the Bengal Electoral Rules.

11. That as the said returned candidate in issuing the aforesaid circulars did not publish his name on their face with a corrupt intention, the said candidate Maulvi Kader Bux is further guilty of the corrupt practice specified in clause 8 of Part II of the Bengal Electoral Rules.

12. That the said returned candidate further committed the corrupt practice as specified in clause 3 of Part I of Schedule V in two instances:

(*a*) Firstly, in that his agent Azimuddin Pandit, resident of Kalikapur, who worked as such in some villages under the Parbatipur thana before the election as well as at the time of polling on the 22nd November, at the polling station of the Habra School, in police-station Parbatipur, produced a man named Mazaruddin Mondal of Joypur as voter No. 34 of union 8 of the Parbatipur thana named Jhoru Mamud Mandal, son of Mamulla Mandal, of Joypur, who did not appear at the polling station, and that the said agent Azimuddin Pandit caused the aforesaid Mazaruddin Mandal to apply for a voting paper in the name of the aforesaid absent voter Jhoru Mamud Mandal and that the said Mazaruddin Mandal with the connivance and under the encouragement of the aforesaid agent Azimuddin Pandit further represented himself before the presiding officer to be the aforesaid absent voter Jhoru Mamud Mandal, son of Mamulla Mandal, whereupon the polling agent of the candidate Munshi Mafizuddin Chaudhury named Raisuddin Ahmed Chaudhury, declared and undertook to prove before the presiding officer that the aforesaid Mazaruddin Mandal thus applying for the ballot paper in the name of the aforesaid absent voter Jhoru Mamud Mandal committed the offence of personation and that thereupon the presiding officer the Sub-Registrar of Parbatipur Babu Saroj Kumar Sen, assisted by the polling officer under clause 38 of the Bengal Electoral Regulations complying with all the requirements laid down therein, allowed him to vote which he did and that in accordance with the aforesaid regulation the aforesaid presiding officer under the circumstances stated above entered the name and address of the aforesaid absent voter Jhoru Mamud Mandal in the challenged vote list with Mazaruddin Mandal's thumb impression in form 3. That the said Maulvi Kader Bux lodged his return of election expenses and declarations on the 8th January 1924, and your petitioner states that they are not correct regarding his agents and other matters.

(b) And, secondly, in that the returned candidate Maulvi Kader Bux himself produced at the polling station, in the office of the Dinajpur Municipality at the time of the polling of the Mahomedan voters of the Ward D of the Dinajpur Municipality on the 22nd November 1923, a man who gave out his name to be Kafuruddin Sheikh and his father's name to be one other than Abdul Hakim who under the encouragement and with the connivance of the aforesaid returned candidate represented himself to be the voter No. 36 of the Ward D of the Dinajpur Municipality, who bears the same name but whose father's name is Abdul Hakim and that your petitioner having been present there at the time, challenged before the presiding officer that the man was not the real voter himself, but the aforesaid returned candidate Maulvi Kader Bux declaring that the aforesaid person whom he produced was the voter himself caused him by his encouragement to apply for the ballot paper in the name of the aforesaid absent voter No. 36 and that under the circumstances the presiding officer Babu Phani Bhusan Ghose and the polling officer complying with all the requirements of the clause 38 of the Bengal Electoral Regulations allowed him to vote which he did after entering his name and address in a challenged vote list with his thumb impression and that afterwards the aforesaid real voter having appeared at the polling for recording his vote the same was allowed in a tendered ballot paper under clause 37 of the Regulations.

Your petitioner prays therefore that the election of the aforesaid returned candidate Maulvi Kader Bux be set aside and that your petitioner may be awarded his costs.

That your petitioner further prays that in the event of the election of the aforesaid returned candidate being set aside and Munshi Mafizuddin Chaudhury; who stood second in the election having agreed that he will not claim his preferential rights, your petitioner may be declared duly elected as a member of the Bengal Legislative Council from the Mahomedan Constituency of Dinajpur and pass any other order that your Excellency may deem fit under the circumstances of the case.

And your petitioner as in duty bound shall ever pray.

VERIFICATION.

(2) Mr. Davies, Magistrate of Midnapore and Returning Officer.

TO HIS EXCELLENCY THE GOVERNOR OF BENGAL.

The humble petition of Rai P. K. Das Gupta Bahadur, late of the Bengal Civil Service,

RESPECTFULLY SHEWETH :—

1. Your petitioner is duly qualified to stand for election from South Midnapore non-Muhammadan constituency and was a candidate for election from the said constituency.
2. The said Mr. C. R. Das was the only other alleged candidate for election from the said constituency.
3. The said Mr. Davies is the Magistrate of Midnapore and Returning Officer for the said constituency.
4. Your petitioner was duly proposed and seconded for nomination as a candidate for the said constituency by Babus Srinath Das and Barendra Roy of Contai, who were duly qualified to propose and second the nomination.
5. Your petitioner, between 12 noon and 1 P.M. of 2nd January 1924, the date appointed for nomination of candidates, personally delivered to the Returning Officer, the said Mr. Davies, at his office, the nomination paper completed in the form prescribed in schedule III and subscribed and dated by your petitioner himself as agreeing to the said nomination and also duly subscribed by the two persons named as proposer and seconder in accordance with rules and regulations made in that behalf.
6. The said Returning Officer duly signed in the presence of your petitioner the certificate of delivery at the bottom of the said nomination paper.
7. The 4th January was the date fixed for the scrutiny of nomination papers.
8. Your petitioner's election agent Babu Srinath Das attended on the 4th January at the appointed hour on behalf of the petitioner who was not personally present.
9. On that date the Returning Officer rejected the nomination of your petitioner on the sole ground that his electoral roll number had not been put down on the nomination paper on the 2nd January.

10. The facts are that your petitioner was misled by the Electoral Rules and Regulations embodied in the Bengal Council Manual published under the authority of the Bengal Government in 1920, which do not require the insertion of the electoral roll number of the candidate in the nomination paper. Your petitioner was not then aware of the amendment published under the Government of India notification No. F-213-V of the 30th July 1923.

11. The omission was detected at the time of filing the nomination paper but as the information was not known to your petitioner, he wired to his brother Sasi Kumar Das Gupta, who was then at Bejgaon and also to the Subdivisional Officer of Munshiganj. Sasi Kumar Das Gupta wired back your petitioner's electoral roll number to his pleader Babu Giris Chandra Das of Midnapore, and the said Babu Srinath Das, your petitioner's election agent, who placed the information at the disposal of the Returning Officer who received the message well in time before the scrutiny.

12. Your petitioner has been informed that the Returning Officer rejected his nomination on the sole ground that the electoral roll number of your petitioner had not been noted on the nomination paper on the 2nd January 1924.

13. Your petitioner is advised that this was only a technical omission and did not invalidate his nomination.

14. The Returning Officer declared Mr. C. R. Das as duly elected on the 4th January 1924.

15. This election was notified in the *Calcutta Gazette* of 9th January 1924 in page 61, Part I.

16. Your petitioner submits that Mr. C. R. Das's nomination and election have been illegal on the following among other grounds:—

(*a*) That Mr. C. R. Das was at Bombay or Cocanada on the 2nd January when his nomination paper was submitted.

(*b*) That he was not present when his proposer and seconder wrote out, signed and submitted the nomination paper to the Returning Officer on 2nd January 1924.

(*c*) That Mr. C. R. Das could not have signed the declaration at the foot of the nomination paper after the nomination had been duly proposed and seconded; and his signature if it appears on the nomination paper must have been put on blank paper or the nomination paper does not bear his own signature at all.

(*d*) That he was at Bombay on the date of nomination and that he was not even aware of the nomination for the said constituency will appear from an Association Press telegram from Bombay published in the "Statesman and Friend of India," dated the 10th January 1924.

(*e*) That the omission of the electoral roll number of your petitioner in the nomination paper, which roll number was duly supplied on behalf of your petitioner to the Returning Officer before the scrutiny, should have been held to have been only a technical irregularity, not affecting the validity of your petitioner's nomination.

17. Under the above circumstances and facts your petitioner humbly prays that (*a*) the nomination and election of Mr. C. R. Das may be declared null and void; (*b*) your petitioner, being the only other candidate, may be held as having been duly nominated and elected for the said constituency; (*c*) your petitioner may be adjudged as entitled to full costs of these proceedings from Mr. C. R. Das and to such other reliefs as your Excellency may be pleased to grant.

The requisite deposit of Rs. 1,000 in cash as security for the costs is herewith made.

Pleader for petitioner,

I, P. K. Das Gupta, the petitioner abovenamed, do hereby declare that the matter and facts contained in paragraphs 1 to 7 above are true to my knowledge and those contained in paragraphs 8 to 15 of this petition are based on informations received and are believed to be true and the rest are my submission. I sign this verification at 88B, Hazra Road, Kalighat, Calcutta, this the 2nd February 1924.

DEPARTMENT OF AGRICULTURE, BENGAL.

Third and Final Report on the Winter Rice Crop of Bengal, 1923-24.

(NOTE.—On an average of the five years ending 1921-22, the area under winter rice in Bengal has represented some 19·7 per cent. of the total area under rice in British India.)

Character of the season.—At the time when the second forecast was issued, the reaping of the crop had already begun and a satisfactory outturn was anticipated for the broadcast, and a fair one for the transplanted, variety. Since then dry weather has been favourable for threshing operations.

Acreage.—According to District Officers' estimates, the total area under winter rice amounts to 14,954,400 acres as against 16,209,900 acres in the corresponding forecast of last year.

Outturn.—From the district returns appended it will be seen that three districts, viz., Dacca, Bakarganj and Noakhali report a normal crop. Ten districts report a crop between 83 and 94 per cent. and the rest between 45 and 75 per cent.

As compared with the second forecast, the crop is a little better in the districts of Jessore, Jalpaiguri, Faridpur and the Chittagong Hill Tracts, while in Birbhum, Bankura, Hooghly and Dinajpur it has fallen somewhat below the previous estimate. In the remaining districts there has been no change since the second forecast.

According to District Officers' estimate, the provincial outturn works out to 80 per cent. of the normal as against 98 per cent. last year. As conditions have not changed in the meantime, I have however decided to retain the same estimate, viz., 85 per cent., as in the second forecast.

Assuming 85 per cent. as the provincial outturn, the gross yield of the cleaned grain from the winter rice crop, on the basis of a normal yield of 12½ maunds per acre, amounts to 5,836,800 tons this year as against 7,294,500 tons in the corresponding forecast of last year or a decrease of 20 per cent.

Director of Agriculture, Bengal (offg.).

In addition to the details required on the reverse, clear information should be given below under the following heads:—

(*a*) If the ordinary surplus is insufficient to meet the charges of the proposed loan the particular steps which the District Board has taken, or has agreed to take, in order to make good the deficiency.	It is proposed to make good the deficiency from the usual annual allotment of about Rs. 10,000 for water-supply.
(*b*) Possible means of increase in the revenues of the District Board.	(*a*) The imposition of cess on mines: this may develop to more than Rs. 3,000 in the next few years; the income from this source has already risen by Rs. 1,300 or thereabout in course of the last two or three years; (*b*) and a revaluation of the cess which is likely to be taken up after the settlement operations in the district are over.
(*c*) A statement of all outstanding loans specifying in respect of each loan the date when taken, the purpose (very briefly), the amount, the annual charges involved and the amount still payable.	Nil.
(*d*) Any explanations in regard to receipts and expenditure to show the true financial position of the District Board when such position is otherwise than the ordinary surplus would indicate.	The expenditure for the year 1921-22 shewed a heavy increase under the sub-head "Miscellaneous" owing to the refund of Rs. 10,000 on account of the contribution paid by the Raja of Hetampur for construction of the Bakreswar bridge and of about Rs. 6,500 for the balances of union committees whose accounts were incorporated with the District Board accounts but were separated from the same on the formation of union boards in the district. This heavy outlay reduced the balance at the credit of the Fund.

CALCUTTA, THE 25TH FEBRUARY 1924.

RESOLUTION—No. 635Edn.

By the death of Dr. Theodore Oliver Douglas Dunn, M.A., D. Litt., the State has lost the services of a capable public servant, and the Governor and his Minister (Education Department) desire to place on record an expression of their regret at this grave loss and their sympathy with his widow. Dr. Dunn was born at Haldane, Cambuslang, Scotland, on the 9th of October 1881, and entered the Indian Educational Service on the 7th December 1908. He assumed charge of the office of the Director of Public Instruction, Bengal, on the afternoon of the 23rd of January 1924. He had acted in this capacity on a previous occasion in 1919, and during that period of officiating service showed that he was possessed of considerable administrative ability. During the brief period that has elapsed since he assumed charge of the department for the second time, he carried out his duties with energy and marked capacity.

Dr. Dunn had served Government prior to his promotion to officiate as Director of Public Instruction in various important capacities in Bengal and Eastern Bengal and Assam. He had occupied the posts of Inspector of Schools and Assistant Director of Public Instruction with credit and had made a special study of the problem of primary education in Calcutta, and his knowledge in this respect proved of great value to the Corporation of Calcutta. As an administrator he was energetic and forceful, endowed with sound judgment and the power of rapid decision.

At the time of his death he was establishing for himself a recognised position in India as a literary critic and man of letters. His own University of Glasgow honoured him with a doctorate in literature. Of late years he had devoted much of his leisure to the task of making better known the work of British Indian authors, both English and Indian, and had also established himself as a force in the revived Calcutta Historical Society. The literary world of Calcutta is the poorer for his loss.

The Governor and his Minister (Education Department) desire to record their high appreciation of Dr. Dunn's valuable services to the State and to the cause of education in Bengal.

By order of the Government of Bengal
(Ministry of Education),

J. A. L. SWAN,
Secretary to the Government of Bengal.

NOTIFICATIONS.

No. 81.—The 28th January 1924.—The following draft of revised rules and rates of tolls for the Calcutta and Eastern Canals, Tolly's Nala and Sundarbans Steamer Route, which, in exercise of the powers conferred by sections 6 and 11 of the Canals Act, 1864 (Bengal Act V of 1864), the Governor in Council intends to make in supersession of all previous notifications on the subject, is hereby published for the information of persons likely to be affected thereby.

II. The draft will be taken into consideration on or after the 20th March 1924, and any objections or suggestions received by the undersigned before that date will be considered :—

Draft Revised Rules and Rates of Tolls.

The rules shall apply to the following navigable channels which are included under the designation "Calcutta Canals and Tolly's Nala" and the "Sundarbans Steamer Route."

I. The Circular Canal comprising the still-water canals between the Dhapa and Chitpore Locks and the New Cut Canal from Ultadingi to Dhapa Lock, together with its junction with the river Hooghly and Orange Soorah at Dhapa.

II. The Central Lake Channel from its junction with the Circular a nal at the Dhapa Lock to its junction with the Bidyadhari at Bamunghatta.

III. The Nowbhanga khal extending northwards for a mile from its junction with the Central Lake Channel below the Dhapa Lock.

IV. The Soorah from its junction with the Central Lake Channel below the Dhapa Lock and extending to the fish market situated adjacent to, and to the west of, the Dhapa Inspector's residence.

V. Tolly's Nala extending from a line drawn across the Nala 25 feet west of the Hastings Bridge at Kidderpore to the Bidyadhari river at Samukpota.

VI. The Kristopore Canal extending from a point in the New Cut Canal, 1 mile 4,700 feet from the Chitpore Lock to a point where it joins the Bhangore khal at Kantatala.

VII. The outfall channel of the Thakurdhari sluice, 4,180 feet in length, extending from a point in village Thakurdhari near the 5th mile-post of the Kristopore Canal to the Thakurdhari sluice on the Paran Chaprasi's khal.

VIII. The Sundarbans Steamer Route as defined in notification No. 71 of the 22nd July 1922.

1. Every vessel on entering the Calcutta Canals or Tolly's Nala shall be liable to measurement for the purpose of ascertaining the tolls payable ; in case of any reasonable doubt arising, the persons appointed by the Governor in Council to collect tolls and officers to whom such persons are subordinate shall have authority to enter upon and again measure a vessel notwithstanding that it was measured on entering the canals.

2. Vessels for the purposes of the determination of tonnage shall be divided into two classes as below :—

Class I.—To include all vessels of the usual native types of build, including *saltees* and *hapars* (fish cages).

Class II.—To include all steamers, flats and barges, and other square built vessels.

The net tonnage of every vessel, whether laden or empty, shall, for the purposes of Act V (B.C.) of 1864 and of these rules, be determined by the following measurements :—

Class I.—

A.—The product of one quarter the length of the vessel from stem to stern, measured along the water-line, multiplied by the interior greatest breadth of the vessel multiplied by the depth from the water-line to the interior bottom of the vessel, is to be taken as equal to the number of maunds upon which toll shall be levied.

B.—The measurement of the length is to be made in feet, rejecting inches · the measurement of breadth and depth is to be made in feet and quarters of a foot, rejecting any remainder of less than a quarter of a foot.

C.—The maundage on which the amount of toll is calculated shall be reckoned to the nearest integral multiple of 12½ maunds, any remainder of less than 12 maunds being rejected. In the case of vessels exceeding 500 maunds by measurement, the maundage shall be reckoned to the nearest integral multiple of 50 maunds, rejecting any remainder of less than 50 maunds.

D.—**Saltees.**—The product of one quarter of the inside length of the vessel measured along the centre line from stem to stern, multiplied by the interior greatest breadth of the vessel, multiplied by the greatest depth measured from the top to the interior bottom of the vessel, is to be taken as equal to the number of maunds upon which tolls shall be levied.

Class II.—

For vessels of class II the number of maunds obtained by the system of measurement prescribed for vessels of class I, shall be increased by one-half. For vessels of this class above 5,000 maunds measurement the maundage shall be reckoned to the nearest integral multiple of 500 maunds, rejecting any remainder of less than 500 maunds. In the case of steamers, the maundage determined as above shall be reduced by one-third as an allowance for engine space.

For vessels of class II which are furnished with reliable way-bills, the gross maundage of cargo shown by the way-bills, or in the case of steamers, the maundage obtained from multiplying the registered tonnage of the steamer by 27, may, at the option of the employer of the vessel or the steamer (as the case may be), be taken as the maundage on which toll will be charged :

Provided that firms or individuals, who wish to make use of this rule, must be approved by the Superintending Engineer of the Southern Circle, and that such approval may be withdrawn for any just cause.

3. Every vessel entering the canals shall be furnished with a ticket on which the name of the serang, manjee or other person in charge of the vessel, the date of entry, the maundage of the vessel, the cargo it contains, the amount of toll charged, and the number of days for which the ticket remains current, shall be entered.

4. All tolls are payable on demand and shall be paid at the toll station before a vessel is permitted to proceed: Provided that the Superintending Engineer of the Southern Circle may at his direction permit vessels belonging to individuals or firms of recognised standing to proceed without pre-payment, on an undertaking that the bills for tollage due shall be liquidated monthly on presentation.

5. The ticket must be kept on board the vessel and must be produced for inspection when demanded by any person authorised to collect tolls, or by any officer to whom such person is subordinate. If on demand the ticket is not produced, such person or officer shall assess the tollage as provided in rule 2 and shall require payment of toll, and unless and until the toll is paid, or the original ticket or a duplicate is produced as evidence that toll has already been paid, the vessel shall be liable to seizure and detention under the provisions of section IX of the Act.

6. Duplicates of lost tickets, of which the numbers and dates can be satisfactorily established, will be granted by the collector of tolls on payment of a sum of one rupee and annas eight. Provided that for tickets on which the total tollage is less than six rupees the fee to be charged for a duplicate shall be one quarter of the total tollage. The minimum fee will be eight annas per ticket.

7. A vessel which has been detained under these rules or under section IX of the Act may not be removed from the canals without the order of the collector of tolls until the toll due has been paid and a ticket obtained for presentation at the exit station. During such detention the manjee, owner or agent must make arrangements for the safety of the vessel and cargo.

8. All vessels, whether the property of Government or of private owners, are liable for toll except those specially exempted under any Government orders in force for the time being.

9. Vessels may be hauled up for repairs on the banks of the canals with the previous written permission of the supervisor appointed by the Governor in Council under section XIII. A rent calculated at one-sixth the rate of ordinary demurrage will be charged for the time the vessel occupies the bank. No vessel may be launched in the canal without the previous written permission of the supervisor.

10. At places where mooring posts have been provided by the supervisor, vessels desiring to moor shall be made fast in single line along the banks to such posts in such manner as the supervisor may direct and shall not be moored in any other manner.

11. The Superintending Engineer, Southern Circle, may fix the limit within which vessels are permitted to remain free of toll, and may also define the limits within which no loading or unloading shall be permitted.

12. No vessel whose extreme breadth including overhanging cargo exceeds 35 feet will be permitted to enter the locks at Chitpore or Dhapa: in the case of the Kulti and Bamunghatta Locks the maximum width allowable is 29 feet.

13. The supervisor may, by written notices to be posted at the toll offices, prohibit the dropping of anchors or the putting up of bamboos or *luggees* in any specified part of the canals or on the banks.

14. Vessels shall be allowed to make fast in single line along the canal banks in such manner as may be directed by the supervisor, and no vessel shall be made fast or be placed outside of vessels so secured. No vessel or raft shall be placed in such a position as to endanger the safety, or obstruct the passage, of other vessels. Every vessel shall at all times have some responsible person on board when the vessel is within the locked canals between toll stations or on Tolly's Nala.

15. Vessels passing through the canals shall keep in separate lines, in accordance with the rules in force as laid down by the Superintending Engineer, Southern Circle from time to time.

16. No person shall deposit goods of any description on the berms of the canals between the frontage roads or towpaths and the canals, except during the actual process of loading or unloading vessels, without the previous permission of the supervisor.

17. Iron built cargo boats, with outside angle irons projecting beyond the wooden fenders, will not be allowed to enter the locks unless permanent fenders are fixed over the edges of the angle irons so as to prevent them from causing damage to the lock.

18. No fire or open or unprotected light of any description shall be used on vessels containing petroleum, jute, hay or straw while in the Calcutta Canals or Tolly's Nala; and no fire or open or unprotected light (except in the case of steamers, the galley and engine-room fires and the electric light) shall be used on any vessel while in a lock basin.

19. No person shall wilfully or negligently allow a vessel to sink in the canals. No vessel which is obviously overloaded or unseaworthy will be permitted to proceed along any part of the canals until made safe to the satisfaction of the supervisor or his staff.

20. In every case of a sunken vessel, whether due to negligence or otherwise, the supervisor and his subordinates shall offer every assistance in removing the same.

If three days after the occurrence of a wreck, it is seen that prompt measures are not being taken by the owner to remove the sunken vessel from the line of navigation, the supervisor and his subordinates shall make their own arrangements for the removal of the same at the expense of the owner, provided that when the wreck obstructs the fairway they shall take immediate steps to remove the same.

21. When a sunken vessel has been recovered, the supervisor shall cause notices to be posted at the locks, toll-offices, or other prominent places, calling on these concerned to pay to the collector of tolls all toll or demurrage which may be due, as well as the expenses incurred in the recovery of the vessel and cargo; should the sum due be not paid within fifteen days of the date of notice, the boat and its furniture, or so much of it as may be necessary for the recovery of the dues, will be sold under the procedure directed in section IX of the Act.

22. The purchaser of a vessel sold under the provisions of section IX of the Act shall have the right to take it out of the canals on the day of purchase, or within such time as may be allowed by the collector of tolls, without payment of tolls.

23. When any laden vessel which has sunk has been recovered or when, any laden vessel has been seized under the provisions of the Act, or of these rules, the supervisor shall give immediate notice of the recovery or seizure to the owner of the cargo or his agent, requiring the removal of the cargo without delay, and informing him that he will be required to pay all expenses necessary for the proper custody and storage of the cargo until removed.

24. If the supervisor be unable to ascertain the name and place of business or the abode of the owner of the cargo of such vessel, the notice prescribed in rule 23 shall be effected by a notice exhibited in his office, and by advertisement in at least one English and one vernacular Calcutta newspaper.

25. Steamers are not allowed to tow flats or cargo boats in the Circular Canal, but may tow one flat or barge at a time astern in the New Cut Canal or Kristopore Canal within toll limits.

26. **Lights and signals.**—All vessels, whether travelling or moored in the Calcutta Canals or Tolly's Nala, must, between sunset and sunrise, carry a white light properly protected from the weather on the forepart of the vessel where it can be distinctly seen from all sides. All steam vessels in motion shall carry the lights prescribed by the Board of Trade Regulations. Barges or boats attached to a steam vessel, whether in motion or moored, shall carry the light prescribed above.

27. **Speed of vessels.**—Every vessel proceeding through the Calcutta Canals and Tolly's Nala must, between sunset and sunrise, limit her speed to three miles per hour.

28. For any contravention of rules 7, 11, 13, 14, 15, 16, 18, 19, 25, 26 and 27 the person in charge of the vessel or other person in fault shall, on conviction before a Magistrate, be liable to a fine not exceeding Rs. 50 or Rs. 5 a day for any continuing infringement.

29. No boats will be allowed to remain in the entrance channels to the Dhapa and Chitpore Locks.

30. The canals may be closed once a year for effecting the necessary repairs to them on one month's notice of the intention so to close them being given; but in the event of any sudden emergency the canals may be closed at any time without prior notice, and no claim in such case by owners of vessels or others for compensation on account of detention shall be entertained.

Chittagong Hill Tracts.

No. 1724L.R.—The 20th February 1924.—In exercise of the power conferred by section 18 of the Chittagong Hill Tracts Regulation, 1900 (Regulation I of 1900), as amended by the Chittagong Hill Tracts (Amendment) Regulation, 1920 (Regulation IV of 1920), read with section 21 of the General Clauses Act, 1897 (X of 1897), the Governor in Council is pleased to make the following amendments in the rules (for the administration of the

Chittagong Hill Tracts) framed under notification No. 123P.D., dated the 1st May 1900, and published in the *Calcutta Gazette* of 2nd May 1900, as subsequently amended, namely :—

For rule 34 *substitute* the following :—

34. (1) No lessee shall, in future, be permitted to hold more than 25 acres of land in all, whether under one lease or more than one. Leases may be granted only to hillmen, provided that non-hillmen of the cultivating classes actually resident in a village may be given leases in that village, but no other up to the maximum of 25 acres.

(2) (*a*) Sub-leases of whatever grade in existence on 3rd December 1920 and still in existence will be recognized as valid : provided that the lessee of every holding in which sub-leases were in existence on that date is required to submit to the Deputy Commissioner within three months of the date on which these rules come into force the name of every sub-tenant of whatever grade who then held land within his tenancy and the rent then payable in respect of it. Sub-leases not reported will be liable to be treated as unauthorized and dealt with under rule 34 (*5*) below. No sub-tenant recognized under this rule shall be evicted except in accordance with rule 34 (*7*) below, nor shall his rent be enhanced except with permission of the Deputy Commissioner.

(*b*) Whenever any recognized sub-lease terminates for whatever reason, the immediate landlord of the sub-lessee shall not again sublet the land without permission of the Deputy Commissioner, and if the sub-lessee had a tenant under him that tenant shall have the option of continuing on the terms on which he holds, or of taking over the entire sub-lease which has terminated at the rent formerly payable in respect of it.

(3) As from 3rd December 1920 no lessee is allowed to sublet the whole or any part of his land except with the sanction of the Deputy Commissioner, which shall be given only in cases of temporary incapacity such as minority, illness or temporary absence. The rent of such sub-tenants duly authorized by the Deputy Commissioner shall be a money-rent and shall not exceed by more than 50 per cent. the rent paid by the lessee to Government for the area sublet. In no case shall the sub-lessee be entitled to sublet. So-called labourers, who are remunerated by a share of the produce, shall be treated as sub-tenants, and if they are recognized by the Deputy Commissioner their rents shall be regulated by the principles stated above.

(4) No lessee or sub-lessee shall be allowed to transfer by sale, gift or mortgage the whole or any part of his holding without the previous sanction of the Deputy Commissioner, who may not sanction any mortgage other than usufructuary mortgage, such mortgage to extend for a period not exceeding seven years and to provide for the extinction of the whole debt including principal and interest within that period subject to the condition that the mortgage will not, in any event, be extended beyond that period. Unauthorised transfers will, in no instance, be recognised unless the transferee has obtained a prescriptive right by 12 years' possession, the burden of proving which will lie on him.

(5) In all cases of unauthorized lease or transfer the Deputy Commissioner shall resume the land sublet or transferred and may either hold it khas or resettle it with the lessor or transferor, or with the lessee or transferee, or with another hillman raiyat according to circumstances.

(6) No partition of a holding shall be made without the consent of the Deputy Commissioner.

(7) A sub-tenant recognized by the Deputy Commissioner is not liable to ejectment except by his order. A sub-tenant will ordinarily be ejected—

(*a*) if he sublets or transfers any part of his holding or fails to show diligence in bringing or keeping the holding under cultivation ;

(*b*) if he fails to pay an arrear of rent recorded or fixed by the Deputy Commissioner ;

(*c*) if he uses the holding in any manner that renders it unfit for the purposes of the tenancy ;

(*d*) if he enhances the rent of a recognized sub-tenant under him without permission of the Deputy Commissioner.

(8) If in any case of unauthorized subletting between 3rd December 1920 and the date on which these rules come into force the Deputy Commissioner considers it inequitable to eject a tenant or sub-tenant, he may allow him to retain his tenancy for a limited period but not beyond the time fixed for the reassessment of the original holding, and any tenancy so allowed to continue shall terminate on the death of the holder.

Notice.

THE Bengal and Madras Service Family Pension Fund which is provisionally managed and assisted by Government has for its object the provision of monthly pensions for the maintenance of the widows and children of subscribers and is open, with certain exceptions, to all active and pensioned members of the Uncovenanted Service of Government (except those serving under the Government of Bombay), and to Local Fund servants earning pensions from Government. Some of the special features of the fund are—(1) that widowed daughters incapable of remarriage or children labouring under such mental or bodily infirmities as incapacitate them from earning their livelihood or preclude the possibility of marriage (in case of a daughter) are admitted to its benefits; and (2) that subscribers to the Widows' and Daughters' branches are entitled to a refund of 30 per cent. of the premia paid, should the nominees predecease them after five years of admission. The second quinquennial valuation of the fund has been completed by the Actuary to the Government of India and his report discloses very favourable results. For forms of application and rules of the Fund apply to the Accountant-General, Central Revenues, Imperial Secretariat Buildings, Calcutta.

RESOLUTION ON THE SURVEY AND SETTLEMENT REPORTS FOR THE YEAR ENDING THE 30TH SEPTEMBER 1923.

GOVERNMENT OF BENGAL.

REVENUE DEPARTMENT.

Land Revenue.

CALCUTTA, THE 19TH FEBRUARY 1924.

RESOLUTION—No. 1679L.R.

READ—

The Survey and Settlement Reports for the year ending the 30th September 1923.

THE year was remarkable for the consideration or carrying into effect of certain important economical measures. In consequence of the decision of Government to curtail the survey and settlement district programme the office of the Director of Land Records was amalgamated with that of the Director of Surveys, and the combined charge is now held by one officer under

the designation of "Director of Land Records and Surveys." Other economies were effected by the amalgamation of the posts of the officers in charge of the Traverse Party and the Drawing Office, the transfer of the administrative control of the Imperial Standard Mapping Section to the Government of India, and the discontinuance of the annual contribution made by this Government towards the cost of this section. The office of the Department of Land Records has now been transferred to the new buildings at Alipore where the survey office is housed and where the office of the district settlement operations of the 24-Parganas will also be located.

2. The decision to utilize the new survey office in this manner, built originally as it had been to deal with an uncurtailed programme, anticipated a recommendation of the Retrenchment Committee to utilize the spare space in it for other purposes and will save expenditure on buildings which would otherwise have been necessary. The other recommendations of the Retrenchment Committee relating to surveys and settlements were duly considered by Government during the year. The recommendations that the landlords and tenants of a district under settlement should pay 19-20ths of the net cost of a district settlement instead of the present proportion of three-fourths, that those of an area under revision of land revenue should pay a proportion of the costs, and that interest should be charged on the expenditure incurred by Government were rejected after full consideration on the ground that they would entail a burden on the residents of the district or area which could not be justified. At the same time it was decided that only one-fourth and not the full stamp revenue received during a district settlement, which had hitherto been deducted from the costs before recovery as a matter of grace, should be deducted, and that no deduction should be made of the sale proceeds of surplus maps and records. In view mainly of the fact that Government has to bear the brunt of a deficit in the case of deficit recoveries the recommendation that excess recoveries should be credited to the district Board of the district concerned was not given effect to.

3. Traverse work was conducted in accordance with the curtailed programme of district operations, which involves only the employment of two traverse parties. One traverse party completed their programme for the year of 765 square miles in the district of Khulna. This completes the traverse survey of the district, and that party is now at work on the traverse of the first area of the 24-Parganas. The other traverse party was at work in the district of Murshidabad in the combined operation of Murshidabad-Birbhum, traversing 74 square miles and relaying 346 square miles of traverse which had been completed in 1920-21 but which could not be utilized owing to the financial situation. This is a striking illustration of how interference with a sanctioned programme, whether for financial or other reasons, means extra expenditure in the long run, as the relay of the traverse which would otherwise have been unnecessary has cost over Rs. 25,000.

4. The curtailment of the district programme involves the employment of only two settlement cadastral parties. These were at work during the year in the districts of Khulna and Pabna-Bogra, where settlement is in full swing, and completed a programme of 1,806 square miles. The cadastral survey of the district of Murshidabad in the joint operations in the districts of Murshidabad-Birbhum does not commence till the present year, but a small strip of 70 square miles was taken up during the year in order to enable diara resumptions to proceed along the Jalangi river.

The settlement operations of the district of Mymensingh were finally closed during the year, whilst those in the three operations of Jessore, Nadia and Bankura reached their concluding stages. In these three districts records for 2,614 square miles were finally published during the year. This represents the work of a three-party programme. but these settlements which were commenced on the older programme have necessarily to be completed. The work as a whole was kept well up to the programme and performed economically, particularly in the case of Khulna. The conditions in the year were more favourable than those of the previous year. The work of the department was not retarded, as was the case in the previous year, by the

non-co-operation movement, nor was any serious difficulty felt in consequence of sickness amongst the staff. By the end of the year records had been completed in over three-fifths of the area in the province to which the Bengal Tenancy Act relates and were under preparation at some stage or another in a still larger area. In fact there are now only the districts of Rangpur, Hooghly-Howrah, Burdwan (except Asansol), Dinajpur and Malda which have yet to be commenced in the general programme for the completion of the province; but owing to the curtailment of the yearly programme the total programme will not be completed till the year 1940-41 instead of the year 1931-32 as originally contemplated.

5. Miscellaneous surveys were also carried out by the Survey Department during the year. The work in connection with the survey of the limits of the jurisdiction of the High Court was continued during the year, and a detailed survey of the banks of the river Hooghly from the Hooghly Bridge to Kalna was taken up at the instance of the Port Commissioners. Petty land revenue settlements resulted in an increase of revenue from Rs. 17,871 to Rs. 26,936. Maintenance operations under section 158A of the Bengal Tenancy Act were carried on in the Fatehsingh estate in Murshidabad, the Mahisadal estate in Midnapore, and the Enaitpore estate in Malda; and the landlords have the privilege of realising their rents by means of the certificate procedure. Two other applications for this privilege from well-known landlords are under consideration.

6. Towards the close of the year an Act was passed to amend the Bengal Tenancy Act, 1885, with a view to convert the *utbandi* tenancies into ordinary raiyati holdings by the commutation of *utbandi* rents into ordinary raiyati rents. It has been extended for the present to the districts of Nadia, Murshidabad and Jessore, where such tenancies mainly exist. Only a few applications under the Act were received during the short period of the year that remained after the passing of the Act, but its provisions are probably not yet widely known.

7. It is gratifying to note the extensive use to which the settlement records and maps are now put. They are freely used in almost every branch of the administration, and during the year under review nearly 9 lakhs of copies of khatians and 1,92, 600 copies of maps were sold to the public.

8. During the year, on the 28th February 1923 and 15th February 1923 respectively, Lieutenant-Colonel F. C. Hirst, lately Director of Surveys, and Mr. F. A. Sachse, I.C.S., lately Director of Land Records, severed their connection with their departments. Lieutenant-Colonel F. C. Hirst went on leave preparatory to retirement after a long period of service in the Survey Department. Since the year 1910 he had been Director of Surveys, first in the province of Eastern Bengal and Assam and then in the province of Bengal as now constituted. His Excellency in Council has therefore much pleasure in taking this opportunity of thanking him for his long and valuable services. The Governor in Council has also much pleasure in thanking Mr. F. A. Sachse for his valuable work as Director of Land Records since the year 1918. Mr. A. K. Jameson, I.C.S., Mr. Sachse's successor in office, took over the dual charge of the Survey Department and of the Department of Land Records and has zealously devoted himself to the work of both departments. His Excellency in Council also appreciates the good work done by Messrs. F. W. Robertson, L. R. Fawcus, H. C. V. Philpot and A. H. Kemm and by Babus Amulya Kumar Guha and Abani Kumar Sen. The good work done by these officers and also by other officers mentioned in the concluding paragraphs of the Survey and Settlement Reports will be noted.

ORDER.—Ordered that this resolution be published in the *Calcutta Gazette.*

By order of the Governor in Council,

M. C. McALPIN,

Secretary to the Government of Bengal.

RESOLUTION ON THE ANNUAL IRRIGATION REVENUE REPORT FOR THE YEAR 1922-23.

GOVERNMENT OF BENGAL.

IRRIGATION DEPARTMENT.

CALCUTTA, THE 19TH FEBRUARY 1924.

RESOLUTION—No. 1I.

READ—

The Annual Irrigation Revenue Report for the year 1922-23.

THE Irrigation and Navigation works in operation in the Bengal Presidency for which both capital and revenue accounts are maintained are (1) the Midnapore Canal, (2) the Hijili Tidal Canal, (3) the Calcutta and Eastern Canals, and (4) the Madaripur Bhil Route. Of these, the Midnapore Canal is used both for irrigation and navigation purposes, whereas the other three are for nagivation only. All these works are now classed as unproductive.

A capital account has also been opened and was maintained during the year under report for the Grand Trunk Canal, although further progress in connection with the project has been held in abeyance for the present on account of financial stringency. A revenue account was formerly maintained for the Orissa Coast Canal, the Nadia Rivers and the Gaighatta and Buxi khal, but it has been abolished with effect from the financial year under review. These are now classed as works for which neither capital nor revenue accounts are kept like other minor works of the department, viz., those in connection with the Eden Canal, the river-training works, the anti-malarial works, and the flood protective works.

2. The financial results of the year and the capital expenditure to date are exhibited in the following statement :—

3. The capital expenditure on the **Grand Trunk Canal** (direct and indirect) during the year was Rs. 26,25,673, and the total capital outlay to the end of the year was Rs. 1,24,29,195. The expenditure during the year was principally incurred to meet payments on account of the dredger *Ronaldshay* and also partly to meet establishment charges.

4. No capital expenditure was incurred during the year on the **Midnapore Canal** which consists of two weirs at Midnapore and Panchkura, 69·75 miles of main and branch canal used both for irrigation and navigation, and 254·5 miles of distributaries. The area irrigated during the year was 81,940 acres as compared with 83,012 acres in 1921-22 and an average of 87,923 for the triennium ending March 1922. The receipts and working expenses (direct and indirect) were Rs. 2,37,854 and Rs. 1,82,875, the result being a net revenue of Rs. 54,979 against a net revenue of Rs. 41,190 in the preceding year. Revised water-rates are being levied on the canal, and the increased rates of tolls that have been fixed will take effect shortly.

5. No capital expenditure was incurred during the year also on the **Hijili Tidal Canal,** which, with the Tarapakia pass khal, Palaboni khal and the khal leading to the Gewankali lock entrance, constitutes a navigation canal of 49¾ miles in length. The receipts and working expenses of the canal during the year were Rs. 79,525 and Rs. 27,727, the result being a net revenue of Rs, 51,798 against a net revenue of Rs. 40,089 in the previous year.

6. **The Calcutta and Eastern Canals** form a series of natural and artificial navigation channels extending for 1,184 miles for the purpose of maintaining communication between Calcutta and Eastern Bengal. The receipts during the year from navigation tolls amounted to Rs. 3,95,256 against Rs. 3,87,457 in the preceding year. A small capital expenditure was incurred on the canal during the year, and this was chiefly on excavating the channel between Kakrabonia khal and channel creek to serve as an alternative to the Doagra channel which is rapidly dying. The result shows that the experiment is not a success and the cut is silting up quickly. The capital expenditure was also partly on completing the demarcation of Government lands along Tolly's Nala.

7. **On the Madaripur Bhil Route** connecting the Madhumati and Kumar rivers in the Faridpur district, a capital expenditure of Rs. 2,35,060 (direct and indirect) was incurred during the year. This was mainly on the work of widening and deepening the main channel of the route. The receipts from navigation tolls during the year amounted to Rs. 3,04,328 against Rs. 2,82,786 in the previous year.

8. **The Orissa Coast Canal** in conjunction with the Hijili Tidal Canal affords communication between Bengal and Orissa, and before the opening of the Bengal-Nagpur Railway it was the only inland route by which food could be conveyed into Orissa in time of famine. This canal is for navigation only and lies partly in the Bengal Presidency and partly in the province of Bihar and Orissa. The receipts and working expenses for the portion within Bengal were, respectively, Rs. 21,387 and Rs. 14,836 against Rs. 14,786 and Rs. 10,280 in the previous year.

9. The work in the **Nadia Rivers** consists in the training of the river channels by bandals with the two-fold object of maintaining by the scouring of shoals a sufficient depth of water for boat traffic and at the same time improving the sanitation of the country. The Hooghly river also depends on these rivers for its head waters. The report of the Committee appointed in 1917 to advise Government on the steps to be taken to carry out systematic observations of the changes in the Nadia rivers and also, if possible, to improve their condition as navigable channels and as feeders for the Lower Hooghly is still under the consideration of Government. The only outcome so far has been the constitution of a permanent board whose duty it will be to examine all important projects which are likely to restrict the free flow of flood water. The receipts and working expenses during the year under review were Rs. 18,989 and Rs. 64,255, respectively. There has been a steady decline in the tollage receipts from the system since the construction of the Eastern Bengal and East Indian Railways on the two banks of the river Bhagirathi, and it has actually been worked at a heavy loss. Accordingly it was decided to throw the Nadia rivers open to free navigation with effect from the 1st September 1923.

10. **The Gaighatta and Buxi khal** is a short channel connecting the rivers Damodar and Rupnarain. This khal has been leased out for a period of six years from the 15th June 1921 to the 14th June 1927 at a rental of Rs. 2,000 per annum on condition that the lessees do all silt clearance at their own cost and maintain the khal to a bed-level of 4·00 feet, subject to the control of the Irrigation Department. The receipts during the year were Rs. 3,550.

11. **The Eden Canal** was originally constructed for sanitary purposes, but it is now used to some extent for irrigation. The supply of water in the canal has become insufficient and uncertain in recent years owing to the precarious nature of the supply in the Damodar river. It is expected that this state of things will improve when the Damodar Canal project is carried out. This project is not, however, going to be taken up shortly, as Government is at present not justified in embarking upon the large expenditure required for it—estimated at Rs. 90 lakhs—unless the people to be benefited finance it under the Agricultural and Sanitary Improvement Act. The opinion of the local public and the district boards has been invited. If the district boards are satisfied that the people to be benefited will accept financial responsibility and the scheme will justify itself, they will make an application under the Act.

The receipts and working expenses of the Eden Canal during the year were Rs. 31,313 and Rs. 43,464, respectively, against Rs. 31,337 and Rs. 36,170, respectively, in the preceding year.

12. **Bidyadhari dredging.**—The Bidyadhari river being the only outlet for the sewerage of Calcutta, it was decided to improve its silted up condition by dredging, the cost being met by Government and the Calcutta Corporation. The dredging was in progress during the year under report.

13. Of the works in connection with the projects for mitigating the effects of the Damodar floods, some were completed and others were in progress during the year.

14. **Training works.**—Training works in connection with the conservancy of the river Ganges between Rajmahal and Goalundo were carried out during the year through the agency of the India General Navigation Company, Limited, under Government supervision. Training works were

also carried out in the channel of the river Ganges at Rampur-Boalia by means of bandalling operations for the improvement of sanitation and navigation and water-supply of the town. Bandalling works were also carried out in the Dhaleswari and Buriganga rivers in the Dacca district.

15. **General.**—As stated in the last year's resolution, the important problems with which the Irrigation Department in Bengal have to deal are connected more with the improvement of navigation and sanitary conditions and control of flood water in the province than with irrigation properly so called. As regards the improvement of navigation Government have long been impressed by the necessity for developing the waterways. For this purpose, three dredgers have been brought from England of which one is intended exclusively for the Grand Trunk Canal. This project has been held in abeyance for the present on account of financial stringency. It is expected that if the project is carried out, navigation in the province will be very greatly improved.

The proposals for river improvements at Dacca were under consideration during the year. Of the anti-malarial schemes required for the improvement of the sanitary and drainage condition of the country, some were completed during the year and others were under construction or investigation. The flood embankments and the sluices in them were efficiently maintained during the year.

ORDER.—Ordered that a copy of the resolution be published in the *Calcutta Gazette* and a copy thereof and its accompaniments be submitted to the Government of India in the Department of Industries and Labour (P. W. Branch) and circulated to other Governments and to all departments and officers of this Government as usual.

G. T. HUNTINGFORD,

Secretary to the Government of Bengal (offg.).

DEPARTMENT OF AGRICULTURE, BENGAL.

Monthly Weather and Crop Report of Bengal for January 1924.

I. **Character of the season.**—During the first-half of the month light rain fell all over the province. The precipitation was above normal in Midnapore, Howrah, Pabna and Faridpur. The usual rainfall statement is appended.

II. **Progress of agricultural operations.**—Reaping of winter paddy was completed and the threshing operations were in full swing. Transplantation of summer rice and preparation of lands for autumn crops in East Bengal continued; more rain was, however, needed. IV. **The prospects and probable outturn.**—A fair harvest for spring crops is anticipated.

V. **Damage to standing crops.**—No damage to the standing crops was reported from any district.

VI. **Condition of agricultural stock.**—The condition of agricultural stock was reported to be fairly good. Sporadic cases of cattle-disease were, however, reported from 11 districts.

EXTRAORDINARY.

WEDNESDAY, MARCH 5, 1924.

GOVERNMENT OF BENGAL.

LEGISLATIVE DEPARTMENT.

NOTIFICATION.

No. 708L., dated Calcutta, the 4th March, 1924.—The following report of the Select Committee on the Calcutta Rent (Amendment) Bill, 1924, with the Bill, as amended by the Committee, is hereby published for general information :—

REPORT OF THE SELECT COMMITTEE ON THE CALCUTTA RENT (AMENDMENT) BILL, 1924.

We, the undersigned members of the Select Committee to which the Bill further to amend the Calcutta Rent Act, 1920, was referred, have considered the Bill and have the honour to submit this, our Report, with the Bill, as amended by us, annexed hereto. In reprinting the Bill, all changes made by us have, so far as possible, been underlined.

We consider that, in view of the limited scope of the present Bill, which is for the extension of an Act in the working of which many defects have been found, the extension should only have effect for one year at present and that measures should be taken in the meantime by means of another Bill to remedy the more serious defects in the Act. We have therefore altered the figure " 7 " to the figure " 5 " in clause 2 of the Bill.

Proposals have been placed before us to exclude from the extension of the Act the tenants of premises who sub-let the whole or part of their premises. This proposal has been ruled by the Chairman to be beyond the scope of the present Bill, so we cannot consider it.

The Member-in-charge of the Bill at the time of moving his motion for a reference to Select Committee proposed that the Select Committee do consider whether the extension of the Act should be limited in scope so as to apply only in respect of premises carrying a standard rent of not more than a fixed sum. This proposal has been considered by us and we are of opinion that the extension of the Act should not be made in respect of premises the standard rent of which exceeds one hundred and fifty rupees *per mensem*. A new proviso to sub-section (4) of section 1 of the Act has been added to give effect to this recommendation with a purely consequential amendment in the existing proviso.

There has been great difference of opinion as to whether, in view of the limitations on the extension of the Act, clause 3 of the Bill should stand. A proposal to delete clause 3 of the Bill has been rejected only by the casting vote of the Chairman, while we have rejected proposals to increase the percentage contained in that clause. We have therefore left clause 3 as it stood at the time of reference to Select Committee. A proposal that an increase in the landlord's profits should be effected by a change of dates, thus changing the existing basis of the standard rent, has been ruled by the Chairman to be beyond the scope of the Bill.

The Bill was published in English in the *Calcutta Gazette* of the 30th January, 1924.

We do not consider that the Bill has been so altered as to require republication.

We recommend that the Bill, as amended by us, be passed.

‡ This member has signed subject to his note of dissent to follow later.

NOTE.—Messrs. H. S. Suhrawardy and A. C. Banerjee have not yet signed the report.

Note of dissent by Mr. K. C. Roy Chaudhuri.

I regret to have to disagree with the majority who favoured an extension for one year only instead of three years. The ground given by them, viz., that a fresh Bill will be forthcoming providing for drastic changes of the existing Act, specially on the question of sub-letting, does not carry any weight with me, because it is mere anticipation. In my opinion an extension for three years would act as a damper to the greedy spirit of a good many landlords, whose determined opposition to any form of rent control is well known.

Note of dissent by Mr. J. Campbell Forrester.

I sign the report, as I understand this is the correct procedure. I dissent entirely from its provisions as now drafted. It is iniquitous to bring in a Bill of this kind. It does not in any way deal with the anomalies of the existing Act, particularly sub-letting, and it gives the landlord a gratuitous 15 *per cent.* increase. Furthermore, the Act is only recommended for extension for one year. It makes distinction of class, as it is only to apply to rentals of Rs. 150 *per mensem*. There are many tenants paying rentals of Rs. 500 *per mensem* who find it more difficult to make ends meet than those paying a cheaper rental, because of the necessity of keeping up a respectable appearance suitable to their professions. It will be quite easy for landlords to evade the provisions of the Bill by surreptitiously arranging for the raising of the rent by a nominal figure. The courts will be crowded out with litigation. It would be better to extend the Act as it stands for one year and the matter of rent control gone into thoroughly next year.

NOTIFICATIONS.

No. 81.—The 28th January 1924.—The following draft of revised rules and rates of tolls for the Calcutta and Eastern Canals, Tolly's Nala and Sundarbans Steamer Route, which, in exercise of the powers conferred by sections 6 and 11 of the Canals Act, 1864 (Bengal Act V of 1864), the Governor in Council intends to make in supersession of all previous notifications on the subject, is hereby published for the information of persons likely to be affected thereby.

II. The draft will be taken into consideration on or after the 20th March 1924, and any objections or suggestions received by the undersigned before that date will be considered :—

Draft Revised Rules and Rates of Tolls.

The rules shall apply to the following navigable channels which are included under the designation "Calcutta Canals and Tolly's Nala" and the "Sundarbans Steamer Route."

I. The Circular Canal comprising the still-water canals between the Dhapa and Chitpore Locks and the New Cut Canal from Ultadingi to Dhapa Lock, together with its junction with the river Hooghly and Orange Soorah at Dhapa.

II. The Central Lake Channel from its junction with the Circular Canal at the Dhapa Lock to its junction with the Bidyadhari at Bamunghatta.

III. The Nowbhanga khal extending northwards for a mile from its junction with the Central Lake Channel below the Dhapa Lock.

IV. The Soorah from its junction with the Central Lake Channel below the Dhapa Lock and extending to the fish market situated adjacent to, and to the west of, the Dhapa Inspector's residence.

V. Tolly's Nala extending from a line drawn across the Nala 25 feet west of the Hastings Bridge at Kidderpore to the Bidyadhari river at Samukpota.

VI. The Kristopore Canal extending from a point in the New Cut Canal, 1 mile 4,700 feet from the Chitpore Lock to a point where it joins the Bhangore khal at Kantatala.

VII. The outfall channel of the Thakurdhari sluice, 4,180 feet in length, extending from a point in village Thakurdhari near the 5th mile-post of the Kristopore Canal to the Thakurdhari sluice on the Paran Chaprasi's khal.

VIII. The Sundarbans Steamer Route as defined in notification No. 7I of the 22nd July 1922.

1. Every vessel on entering the Calcutta Canals or Tolly's Nala shall be liable to measurement for the purpose of ascertaining the tolls payable ; in case of any reasonable doubt arising, the persons appointed by the Governor in Council to collect tolls and officers to whom such persons are subordinate shall have authority to enter upon and again measure a vessel notwithstanding that it was measured on entering the canals.

2. Vessels for the purposes of the determination of tonnage shall be divided into two classes as below :—

Class I.—To include all vessels of the usual native types of build, including *saltees* and *hapars* (fish cages).

Class II.—To include all steamers, flats and barges, and other square built vessels.

The net tonnage of every vessel, whether laden or empty, shall, for the purposes of Act V (B.C.) of 1864 and of these rules, be determined by the following measurements :—

Class I.—

A.—The product of one quarter the length of the vessel from stem to stern, measured along the water-line, multiplied by the interior greatest breadth of the vessel multiplied by the depth from the water-line to the interior bottom of the vessel, is to be taken as equal to the number of maunds upon which toll shall be levied.

B.—The measurement of the length is to be made in feet, rejecting inches : the measurement of breadth and depth is to be made in feet and quarters of a foot, rejecting any remainder of less than a quarter of a foot.

C.—The maundage on which the amount of toll is calculated shall be reckoned to the nearest integral multiple of 12½ maunds, any remainder of less than 12½ maunds being rejected. In the case of vessels exceeding 500 maunds by measurement, the maundage shall be reckoned to the nearest integral multiple of 50 maunds, rejecting any remainder of less than 50 maunds.

D.—**Saltees.**—The product of one quarter of the inside length of the vessel measured along the centre line from stem to stern, multiplied by the interior greatest breadth of the vessel, multiplied by the greatest depth measured from the top to the interior bottom of the vessel, is to be taken as equal to the number of maunds upon which tolls shall be levied.

Class II.—

For vessels of class II the number of maunds obtained by the system of measurement prescribed for vessels of class I, shall be increased by one-half. For vessels of this class above 5,000 maunds measurement the maundage shall be reckoned to the nearest integral multiple of 500 maunds, rejecting any remainder of less than 500 maunds. In the case of steamers, the maundage determined as above shall be reduced by one-third as an allowance for engine space.

For vessels of class II which are furnished with reliable way-bills, the gross maundage of cargo shown by the way-bills, or in the case of steamers, the maundage obtained from multiplying the registered tonnage of the steamer by 27, may, at the option of the employer of the vessel or the steamer (as the case may be), be taken as the maundage on which toll will be charged :

Provided that firms or individuals, who wish to make use of this rule, must be approved by the Superintending Engineer of the Southern Circle, and that such approval may be withdrawn for any just cause.

3. Every vessel entering the canals shall be furnished with a ticket on which the name of the serang, manjee or other person in charge of the vessel, the date of entry, the maundage of the vessel, the cargo it contains, the amount of toll charged, and the number of days for which the ticket remains current, shall be entered.

4. All tolls are payable on demand and shall be paid at the toll station before a vessel is permitted to proceed : Provided that the Superintending Engineer of the Southern Circle may at his direction permit vessels belonging to individuals or firms of recognised standing to proceed without pre-payment, on an undertaking that the bills for tollage due shall be liquidated monthly on presentation.

5. The ticket must be kept on board the vessel and must be produced for inspection when demanded by any person authorised to collect tolls, or by any officer to whom such person is subordinate. If on demand the ticket is not produced, such person or officer shall assess the tollage as provided in rule 2 and shall require payment of toll, and unless and until the toll is paid, or the original ticket or a duplicate is produced as evidence that toll has already been paid, the vessel shall be liable to seizure and detention under the provisions of section IX of the Act.

6. Duplicates of lost tickets, of which the numbers and dates can be satisfactorily established, will be granted by the collector of tolls on payment of a sum of one rupee and annas eight. Provided that for tickets on which the total tollage is less than six rupees the fee to be charged for a duplicate shall be one quarter of the total tollage. The minimum fee will be eight annas per ticket.

7. A vessel which has been detained under these rules or under section IX of the Act may not be removed from the canals without the order of the collector of tolls until the toll due has been paid and a ticket obtained for presentation at the exit station. During such detention the manjee, owner or agent must make arrangements for the safety of the vessel and cargo.

8. All vessels, whether the property of Government or of private owners, are liable for toll except those specially exempted under any Government orders in force for the time being.

9. Vessels may be hauled up for repairs on the banks of the canals with the previous written permission of the supervisor appointed by the Governor in Council under section XIII. A rent calculated at one-sixth the rate of ordinary demurrage will be charged for the time the vessel occupies the bank. No vessel may be launched in the canal without the previous written permission of the supervisor.

10. At places where mooring posts have been provided by the supervisor, vessels desiring to moor shall be made fast in single line along the banks to such posts in such manner as the supervisor may direct and shall not be moored in any other manner.

11. The Superintending Engineer, Southern Circle, may fix the limit within which vessels are permitted to remain free of toll, and may also define the limits within which no loading or unloading shall be permitted

12. No vessel whose extreme breadth including overhanging cargo exceeds 35 feet will be permitted to enter the locks at Chitpore or Dhapa: in the case of the Kulti and Bamunghatta Locks the maximum width allowable is 29 feet.

13. The supervisor may, by written notices to be posted at the toll offices, prohibit the dropping of anchors or the putting up of bamboos or *luggees* in any specified part of the canals or on the banks.

14. Vessels shall be allowed to make fast in single line along the canal banks in such manner as may be directed by the supervisor, and no vessel shall be made fast or be placed outside of vessels so secured. No vessel or raft shall be placed in such a position as to endanger the safety, or obstruct the passage, of other vessels. Every vessel shall at all times have some responsible person on board when the vessel is within the locked canals between toll stations or on Tolly's Nala.

15. Vessels passing through the canals shall keep in separate lines, in accordance with the rules in force as laid down by the Superintending Engineer, Southern Circle from time to time.

16. No person shall deposit goods of any description on the berms of the canals between the frontage roads or towpaths and the canals, except during the actual process of loading or unloading vessels, without the previous permission of the supervisor.

17. Iron built cargo boats, with outside angle irons projecting beyond the wooden fenders, will not be allowed to enter the locks unless permanent fenders are fixed over the edges of the angle irons so as to prevent them from causing damage to the lock.

18. No fire or open or unprotected light of any description shall be used on vessels containing petroleum, jute, hay or straw while in the Calcutta Canals or Tolly's Nala; and no fire or open or unprotected light (except in the case of steamers, the galley and engine-room fires and the electric light) shall be used on any vessel while in a lock basin.

19. No person shall wilfully or negligently allow a vessel to sink in the canals. No vessel which is obviously overloaded or unseaworthy will be permitted to proceed along any part of the canals until made safe to the satisfaction of the supervisor or his staff.

20. In every case of a sunken vessel, whether due to negligence or otherwise, the supervisor and his subordinates shall offer every assistance in removing the same.

If three days after the occurrence of a wreck, it is seen that prompt measures are not being taken by the owner to remove the sunken vessel from the line of navigation, the supervisor and his subordinates shall make their own arrangements for the removal of the same at the expense of the owner, provided that when the wreck obstructs the fairway they shall take immediate steps to remove the same.

21. When a sunken vessel has been recovered, the supervisor shall cause notices to be posted at the locks, toll-offices, or other prominent places, calling on these concerned to pay to the collector of tolls all toll or demurrage which may be due, as well as the expenses incurred in the recovery of the vessel and cargo; should the sum due be not paid within fifteen days of the date of notice, the boat and its furniture, or so much of it as may be necessary for the recovery of the dues, will be sold under the procedure directed in section IX of the Act.

22. The purchaser of a vessel sold under the provisions of section IX of the Act shall have the right to take it out of the canals on the day of purchase, or within such time as may be allowed by the collector of tolls, without payment of tolls.

23. When any laden vessel which has sunk has been recovered or when, any laden vessel has been seized under the provisions of the Act, or of these rules, the supervisor shall give immediate notice of the recovery or seizure to the owner of the cargo or his agent, requiring the removal of the cargo without delay, and informing him that he will be required to pay all expenses necessary for the proper custody and storage of the cargo until removed.

24. If the supervisor be unable to ascertain the name and place of business or the abode of the owner of the cargo of such vessel, the notice prescribed in rule 23 shall be effected by a notice exhibited in his office, and by advertisement in at least one English and one vernacular Calcutta newspaper.

25. Steamers are not allowed to tow flats or cargo boats in the Circular Canal, but may tow one flat or barge at a time astern in the New Cut Canal or Kristopore Canal within toll limits.

26. **Lights and signals.**—All vessels, whether travelling or moored in the Calcutta Canals or Tolly's Nala, must, between sunset and sunrise, carry a white light properly protected from the weather on the forepart of the vessel where it can be distinctly seen from all sides. All steam vessels in motion shall carry the lights prescribed by the Board of Trade Regulations. Barges or boats attached to a steam vessel, whether in motion or moored, shall carry the light prescribed above.

27. **Speed of vessels.**—Every vessel proceeding through the Calcutta Canals and Tolly's Nala must, between sunset and sunrise, limit her speed to three miles per hour.

28. For any contravention of rules 7, 11, 13, 14, 15, 16, 18, 19, 25, 26 and 27 the person in charge of the vessel or other person in fault shall, on conviction before a Magistrate, be liable to a fine not exceeding Rs. 50 or Rs. 5 a day for any continuing infringement.

29. No boats will be allowed to remain in the entrance channels to the Dhapa and Chitpore Locks.

30. The canals may be closed once a year for effecting the necessary repairs to them on one month's notice of the intention so to close them being given; but in the event of any sudden emergency the canals may be closed at any time without prior notice, and no claim in such case by owners of vessels or others for compensation on account of detention shall be entertained.

(1) The names of all persons, if any, ordered to be entered in the list of Special Jurors for such Session under rule 12, 15 or 20 shall be first entered in the said list, unless the Judge shall be satisfied as regards any one or more of such persons that he or they will be unable, from illness or other sufficient cause, to attend at such Session, in which case the name of such person may be set aside in the same manner as it might have been set aside under rule 12, if the name had been drawn by lot for such Session.
